## History

SF is a young company founded in 2019, with the dream of serving to the different Textile sectors.

We have 20 years' experience in Textile field and have been controlled Exports productions / sales in different companies. 2 Years back, we have established our own company and emerged as one of the fore runners in the field of textile products from Pakistan.

## CEO Message

our company has become a breath of fresh air and a driving force for the industry with both its innovative perspective and quality policies. Since the first day of our establishment, we interfuse all of our excitement into the fabrics and reflect the spirit of this excitement within our products which we offer as ready-made. indeed, we have our teammates to thank who have been working with the same excitement, for the spectacular feedback we have received after our first export to abroad. Today, we export world wide. The brands we work with are the companies that always have high quality expectations and have a significant share in the sector. The greatest supporters of our company up to this point have been our employees and our partners ,I see our success target as quality at all times and also innovative perspective. I would like to express my thanks to everyone who kept sharing this passion with us towards the future.

## Mission Statement

Dealing in the textile fabric and made ups, the Group vows to maintain its high quality standards by employing latest techniques, the best professionals and taking on innovative and diversified projects. We provide a pleasant, nurturing and growth oriented environment which encourages our employees to be highly productive and to be grown personally and professionally. We also promise to return the societal share through the philanthropic endeavors.

Silverfox ventured into weaving in the year of 2003 with 16 looms and in short span of 1-year time grown into 56 looms. Since 2019, we have switched our production into own exports and earned the reputation of stable quality supplier on the international market. More than 50% of our requirements still fulfilled from sub-contractors at the moment. We export our fabric in greige, bleached, dyed and printed forms. Different kind of meter fabrics packaging is usual in form of Hydraulic pressed Bales, Rolls and Palletings.

The latest sewing units equipped with high-tech machines that can stitch variety of fabrics to convert into home, healthcare, hospitality and apparels to attain the finest level of production, efficiency and utmost level of quality standards. We have 2 stitching Units, having more than 200 machines and have plan to extend up till 300 machines till end of next year. With full control over production from 1st step of yarns to stitched products, we ensure environmental sustainability, human social right protection and health safety on all production phases.
