DESIGN STRENGTH

In addition to having high-quality products and services, the reason why Hebei Cloudland can develop rapidly is that the gathering and cultivation of talents is also crucial. After more than ten years of development, Hebei Cloudland now has a high-level, high-efficiency, high-standard design team, team members are proficient in Photoshop, 3DMAX and Coola, etc. professional design software, whether in the design of patterns, the selection of fabrics, color matching or the presentation of scenes, they strive for perfection, and strive to create more fashionable, diversified and daily household products for thousands of families at home and abroad.

MANAGEMENT STRENGTH

In terms of internal management and human resource management, Hebei Cloudland has established a comprehensive quality management system; In factory management, brand management, capital operation, computer system and other aspects of self-contained system, actively cultivate and develop employees' management skills and professional skills. Better carry out professional, personalized and comprehensive customer service. Hebei Cloudland also has a fixed training and management organization, which adopts scientific and advanced management mode to manage and train employees under each organizational structure to achieve the unity of hardware and software..

Hebei Cloudland's goal is to be a leading home textile enterprise with "first-class brand, first-class scale and first-class team". Drawing on the world's advanced experience, Hebei Cloudland has established a modern enterprise system with business development strategy as the core, and formed a series of efficient and pragmatic operation and management modes with Hebei Cloudland characteristics, such as the three-level management system of the chairman, the president's office, and the heads of each center of the company, as well as target plan management and performance appraisal management.

At the beginning of its establishment, the management system adhered to the good foundation of the industry; With the continuous development of the company's business, the company's internal management requirements and the requirements of external customers and other relevant parties continue to improve, Hebei Cloudland management system continues to pursue perfection, meet customer needs and related party requirements, and create value for customers. A good management system enables the company to always maintain efficient operation and standardized operation, and provide guarantee for the realization of the company's vision and sustainable development.

Home textile ODM - comfortable, healthy and trendsetter

Adhering to the R & D concept of "product research and development begins with customers and ends with customers", we have built a perfect product design and development system. It has advanced CAD industrial design capabilities and has established design centers in Australia and the Americas. And with more than 20 universities and scientific research institutions to establish product R & D and design platform, build an international design network, absorb more than 100 international top design talents. It has built a proofing workshop with complete functions and industrial chain, with more than 200 sets of professional sewing equipment, which can quickly convert customer needs into products, and form standard processes, realize on-site research and development, rapid research and development, diversified research and development, and maintain the strong competitiveness of products. More than 10,000 new products have been launched to customers and consumers.

We promise new product development efficiency: 24 hours to complete A4 sample card, 72 hours to complete small simulation sample, 120 hours to complete sample production.

The home changes in design Design is sublimated in the home

Understand design, understand life, and understand your home

After more than ten years of development, Hebei Cloudland Home Textile now has a high-level, high-efficiency and high-standard design team, focusing on a series of home fabric products from bedding and quilts to curtains, throw pillows and other home fabric items. The team is composed of a group of creative home textile designers who love life, and maximize work efficiency and realize self-worth through the teamwork model, while promoting the steady development of the company.

The most distinctive feature of Hebei Cloudland design is the diversity of styles, which combines Western cultural trends, Eastern civilization and the customer's life pursuit to create the customer's own personality characteristics. Whether it is in the design of flower patterns, the selection of fabrics, the matching of colors or the presentation of scenes, we strive for perfection, and strive to create more fashionable, diversified and daily home textile fabric products for thousands of families at home and abroad.

Hebei Cloudland design team adheres to the design concept of "innovation, creativity and value creation", people-oriented, close to life, so that the home can achieve the perfect combination of "love" and "beauty". Create a comfortable, exquisite, artistic and warm home atmosphere for every customer, so that everyone can feel the beauty of going home.

We hope that through design, more people can feel a fresh and perfect home experience... We provide new inspiration and vitality for more people's ideal homes, and continue to strive for the ultimate enjoyment of home life.
