Our Product Portfolio: The Ultimate Sustainable Choice

Ditch Single-Use Plastic with the VIVA 2 Collection!

Why rely on disposable products when **sustainable materials bring freshness and style to everyday life**? The **VIVA 2 collection**, with its **modern color palette**, introduces a **new way to experience tableware**. Made from **bio-based material derived from sugarcane**, it is a **perfect alternative to single-use plastic**. With its **elegant design and functionality**, VIVA 2 is ideal for any home—whether for family dinners, gatherings with friends, or outdoor picnics.

CONTESSA – Elevate Your Dining Experience

For those who appreciate **fine dining and elegant presentation**, the **CONTESSA** collection offers **beautifully designed bowls, larger mugs, and serving dishes**. Its **sophisticated aesthetics and durable construction** ensure that every meal feels like an experience. Whether hosting a formal dinner or simply elevating everyday meals, CONTESSA is the **perfect choice**, made from **high-quality, bio-based sustainable materials**.

PICK&GO – The Perfect Companion for an Active Lifestyle

For those who love the outdoors, the **PICK&GO** collection offers a **sustainable solution for meals on the go**. Picnic sets and **food storage containers** are **lightweight, durable, and made from eco-friendly materials**, allowing you to enjoy your meals while respecting the planet. Whether you're heading for a hike, the beach, or a camping trip, **PICK&GO is your reliable companion**.

Innovative Walking Slabs – Recycled Sustainability in Practice

Why let **industrial waste go unused** when it can be transformed into **high-quality walking slabs**? Skaza has developed **100% recycled slabs**, perfect for **yards, playgrounds, terraces, and even parking areas**.

- ✓ **Modular design** for easy size adjustments
- ✓ **Non-slip surface** for safety in all weather conditions
- ✓ **High durability** – strong enough to support the weight of a car

Easy to install, long-lasting, and sustainably crafted, these slabs are **an ideal solution for those seeking both functionality and environmental responsibility**.

Bokashi Organko – Eco-Friendly Gardening Without Compromise

For **20 years**, Skaza has been transforming home composting with its **Bokashi Organko** composters. **Innovative fermentation technology** enables **fast processing of organic waste**, producing **rich compost and liquid fertilizer** that enhances soil quality and **boosts plant growth**.

- ◆ **Easy to use** – no complex procedures
- ◆ **Fast decomposition** – without unpleasant odors
- ◆ **100% natural fertilizer** – improves crop yield

As **self-sufficiency becomes increasingly important**, **Bokashi Organko** offers a **sustainable and efficient solution** for those looking to **reduce waste while enriching soil with essential nutrients like nitrogen, phosphorus, and potassium**—the foundation of healthy plant growth.

Block Plastic Bags – Join the Organko Daily Movement!

Every year, more than **500 billion plastic bags** are used worldwide. Through our **#BlockTheBag – Pass the Organko! campaign**, we provide a **smart, sustainable alternative** to single-use plastics.

- ◆ **Award-winning innovation** – Red Dot & Big See winner, European Recycling Plastic Awards finalist
- ◆ **Made from 100% recycled plastic**, preventing plastic pollution in soil
- ◆ **Odor-free and designed for daily use**

With **Organko Daily**, you can **efficiently collect organic waste without plastic bags**, contributing to a cleaner environment and circular economy. It's time for a change—ditch plastic bags and switch to **Organko Daily!**

Your Success is Our Goal

With **internationally recognized awards** and **thousands of satisfied customers worldwide**, we create products that **stand out—first on store shelves and then in the homes of your customers**.
