## THEY TALK ABOUT OS IN...

*Reflections Copenhagen sells surrealist mirrors shaped like lips and eyes as well as candleholders, book ends and tables made of vividly colored crystal.*

*Like a precious gem, this beautifully faceted amber crystal object will glow when the candle inside is lit, catching the sun and casting dynamic patterns where the light hits it. The tuberose scent enhances the feeling of Art Decostyle glamour.*

*Crystal used to be considered a bit of a fusty, dusty material, used for your grandmother's decanters or best glassware that only came out on special occasions, but Reflections Copenhagen is breathing new life into the stayed material with their whimsical and joyful, colour pop creations.*

*As an expert in crystal, the Danish brand awakens Scandinavian aesthetics with a new vibrant table art collection.*
