RETAILERS

FIRE. FORM. FUNCTION.

Only those who burn for a cause can kindle the fire in others and achieve great things. At höfats, that's exactly what it's all about - FIRE.

Without an appealing form, function receives no stage. It's not just about a beautiful form, it's about the right form. The right form corresponds with the function, derives from it, can be explained functionally, is purist and yet unique. The best form is not replaceable.

We strive for fascinating functionality. The höfats products are amazingly intuitive, surprise with multifunctionality and inspire with the clever use of physical effects. These functionalities are often unique and, to keep it that way, patented.

höfats brings fire into your life. Indoors and outdoors.

We are a young Allgäu design company that develops and sells fascinating products around the topic of open fire. Fire, form, function - this triad is our unmistakable DNA, which has appealed to fire enthusiasts, design lovers, outdoor fans and romantics alike since 2015.

We are driven to create the perfect ambience for your unforgettable fire stories, because is there anything better than being gathered around a crackling fire with your best friends? To this end, we invent, optimise and produce beautiful, innovative and unique products. Our range includes tabletop fireplaces, fire baskets, fire bowls, barbecues, lanterns, torches and is constantly being expanded - always with the aim of making time by the fire the best time of your life.

All our products combine purist design, inspiring functionality and materials of the highest quality. They have won over 50 international design awards in recent years, including the most prestigious in the industry.

A modern, cylindrical torch with a flame, resting on a dark rock in front of a waterfall. The torch has a clear glass body and a dark base. The flame is bright orange and yellow. The background is a dark, rocky landscape with a waterfall in the distance.

SPIN

SPIN 900 | 1200 | 1500

COLOURS | MATERIALS

HOUSING stainless steel **GLASS CYLINDER** borosilicate glass

SPIN 900 | 1200 | 1500 TABLETOP FIREPLACE – The fascinating play of flames continues to impress with first-class aesthetics, sophisticated functionality and uncompromising safety. The technologically advanced Bio-Burner safely holds the liquid höfats bioethanol inside and lets the striking flame rise like a sculpture when the glass cylinder made of heat-resistant borosilicate glass is placed on top. Stable, odourless and smoke-free, the warmth of the fire can be enjoyed both indoors and outdoors. Everything is always under control because the Eco-Ring can increase the burning time by 50% and if the evening comes to an end before the flame is extinguished, the fire can be completely and safely extinguished with the included extinguishing lid. This multi-award-winning design product leaves a lasting impression thanks to a comprehensive range of accessories, including a stand elevation, garden torch and floating hanging fire.

- Tabletop fireplace with optional extension to a lantern, garden torch or hanging fire
- Multi award-winning design
- Patented Bio-Burner with innovative burner technology
- Clearly structured and visible flame, even in daylight
Burn time on one filling 80–120min (SPIN 900), 100–150min (SPIN 1200), 100–150min (SPIN 1500)
- Burn time can be increased by 50 % with Eco-Ring
- Radiates pleasant heat (SPIN 900: 1100 W, SPIN 1200: 2000 W, SPIN 1500: 3800 W)
- Safe to use indoors, laboratory tested for indoor use according to DIN EN 16647
- Filling with liquid fuel via the safety valve of the Bio-Burner
- Odourless, soot and smoke-free thanks to organic höfats bioethanol
- Scope of delivery: base, wing body, Bio-Burner with Eco-Ring and extinguishing lid, glass cylinder
- Optional accessories: stand elevation, ground spike (SPIN 900 & 1200), hanging system, bioethanol liquid fuel

ACCESSORIES FOR SPIN

ACCESSORIES SUITABLE FOR ALL SPIN MODELS

SPIN HANGING SYSTEM – With the hanging system, SPIN becomes a hanging fire that can be suspended from the stable yet elegant stainless steel wire, attached to a hook and flexibly adjusted in height. SPIN seems to float effortlessly in space and becomes an impressive eye-catcher, whether indoors or outdoors.

- Enables use of SPIN 900 | 1200 as a hanging fire
- Indoor and outdoor use
- Suspension by stainless steel wire, height adjustable
- Easy screw mounting without tools
- Stainless steel, brushed

SPIN 1500 Hanging System silver
11 × 19 × 97 cm, 1 kg, Wire length: 60–120 cm
brutto 13 × 21 × 100 cm, 1.8 kg
Item no. 00774, EAN 4064251007740

SPIN 1200 Hanging System silver
16 × 8,5 × 79 cm, 1.2 kg, Wire length: 60–120 cm
gross 62 × 19 × 13.5 cm, 2.1 kg
Item no. 00308, EAN 4064251003087

SPIN 900 Hanging System silver
13 × 6 × 60 cm, 0.4 kg, Wire length: 60–120 cm
gross 62 × 12,5 × 8 cm, 0.6 kg
Item no. 00312, EAN 4064251003124

GROUND SPIKE – With the ground spike as an accessory, SPIN can be transformed into a garden torch in no time at all. Simply stuck into the lawn, flower bed or flower pot or screwn onto the base, it will enchant guests at the next garden party and become the eye-catcher of the evening. Thanks to the three different length components of the ground spike (17 cm + 34 cm + 48 cm), the SPIN can be raised to the desired height and securely anchored in the ground via the additional ground spike.

- Enables use of SPIN 900 | 1200 as a garden torch
- Variable height thanks to three-part ground spike
- Easy screw mounting without tools
- Is inserted into the ground via the ground spike
- Can also be mounted on the SPIN 1200 Base as a foot on solid ground
- Only for outdoor use
- Stainless steel and oak

Ground Spike silver
Ø 1.5 cm, 124 cm length, 0.39 kg | gross 49 × 5.5 × 2 cm, 0.5 kg

BIOETHANOL LIQUID FUEL – The original höfats bioethanol liquid fuel is made from renewable raw materials and provides the perfect flame experience for all SPIN tabletop fireplaces with Bio-Burner. Odourless, smoke-free and organic, you can enjoy the warmth of the fire in complete safety and with a clear conscience and let your balcony, terrace, living room or dining table shine in atmospheric light.

- Safe, natural, sustainable, odourless and smokeless fuel
- 1 l bioethanol liquid fuel per bottle
- Use only for the SPIN Bio-Burner 900 | 1200 | 1500
- Safety gel fuel according to Regulation (EC) No 1907/2006 (REACH)

Bioethanol Liquid Fuel 6 pack
Ø 9 cm, 27 cm Height, 0.9 kg | gross 26×18×28 cm, 5.2 kg
Item no. 00517, EAN 4064251005258

SPIN BIO-BURNER – The central element of the popular flame play enchants all SPIN lovers with a spectacular flame experience. Enjoy a striking and brightly glowing flame that rises like a sculpture at any time of day or night, indoors or out. The technologically advanced bio-burner is 100% compatible with SPIN 90 | 120 and impresses with its sophisticated functionality, uncompromising safety and a significantly longer burning time with the same amount of bioethanol liquid fuel. Odourless, soot-free and smoke-free, you can enjoy the warmth of the fire and, with the additional Eco-Ring, the burning time can be extended by another 50 %.

- Patented Bio-Burner with innovative burner technology
- Can replace the gel fuel cup of SPIN 90 | 120 and thus upgrade SPIN 90 | 120 to SPIN 900 | 1200
- Capacity: 250 ml (SPIN 900), 500 ml (SPIN 1200) 1000 ml (SPIN 1500)
- Burn time can be increased by 50 % with Eco-Ring
- Bio-burner is filled with liquid bioethanol via protection valve
- Only for use with höfats bioethanol liquid fuel
- Scope of delivery Bio-Burner 900 | 1200: Bio-Burner, Eco-Ring, extinguishing lid
- Scope of delivery Bio-Burner 1500: Bio-Burner

SPIN 1200 Bio-Burner
Ø 8,7 cm, 10.5 cm Height, 0,3 kg | gross 12×13×12 cm, 0.4 kg
Item no. 00696, EAN 4064251006985

HOUSING stainless steel
GLASS CYLINDER borosilicate glass

1 product, 2 variations:
standing or hanging

Removable wax drip tray
for easy cleaning

Lid as heat protection and
flame extinguishing

Safe stand for
conventional candles

OVAL CANDLE 35 – A declaration of love to the long oval. Timelessly elegant, soft and smooth, the candle is framed and set in scene with its impressively large flame. OVAL CANDLE is as iconic as it is functional. Hanging or standing on the table, indoors and outdoors - this lantern enchants every conceivable situation with heart-warming candlelight. And it is always safe and clean thanks to the heat-resistant glass cylinder, drip tray and extinguishing lid.

- ☆ Suitable for one candle with Ø 50 mm, max. 100 mm long
- ☆ 3 holding pins allow the candle to stand securely
- ☆ Specially designed candle support by 4 pins, safe stand also for Stearin candles
- ☆ Removable wax drip tray underneath the candle ensures safe burning and easy cleaning
- ☆ Two different variations: standing base with felt pad or height-adjustable, heat-resistant aramid cord for suspending
- ☆ Lid with silicone handle as heat protection and
- ☆ To extinguish the candle
- ☆ Easy to assemble without tools
- ☆ Stainless steel, brushed

OVAL CANDLE 35 silver
10 x 10 x 36 cm, 0.7 kg | gross 12.5 x 12.5 x 43 cm, 1.3 kg

the weather)

GRAVITY CANDLE – No matter how you turn GRAVITY CANDLE, with this lantern the candle will always remain perpendicular due to gravity. GRAVITY CANDLE inspires with a gimbal-mounted tea light, making wax splashes from blowing out the candle a thing of the past. Simply turn the GRAVITY CANDLE upside down, and the glass cylinder will slip over the tea light, smothering the flame cleanly and without smoke. In this inverted position, the tea light is also protected from the weather and leaves when not in use.

This gimbal is also extremely useful when lighting. Tilted to the side, the candle can be lit comfortably without the risk of burning. Whether standing on the table, hanging or mounted on a pole: Thanks to the range of accessories, GRAVITY CANDLE offers even more functionalities and enchants favourite places indoors and outdoors with atmospheric candlelight.

GRAVITY CANDLE HANGING SYSTEM – Thanks to the optional hanging system, GRAVITY CANDLE floats in space. Assembly is simple and does not require any tools: Pull off the glass cylinder, put on the ring together with the bracket and put the glass cylinder back on. Even in this position, the lantern can simply be turned over to extinguish the candle and is protected from the weather.

GRAVITY CANDLE POLE – With this pole, GRAVITY CANDLE can be mounted anywhere in the garden, but also in a flower pot. GRAVITY CANDLE is simply placed on the basin of the pole and can also be easily turned over in this position to extinguish the candle and is protected from the weather.

GRAVITY CANDLE BASE – If the GRAVITY CANDLE is to stand freely on the pole, this solid base is mounted.

- ☆ **Lantern with gimballed candle**
- Candle always remains perpendicular due to gravity
- Convenient lighting
- Safe and clean extinguishing of the flame
- Protects against leaves, water and dust when turned upside down
- Secure hold for gastro tea lights
- Optional accessories: hanging system, pole, base
- Lower part: die-cast zinc

BOWL 57 | 70 PLANCHA – Cooking on a hot surface heated by fire - a millennia-old tradition, worldwide, in the most diverse cultures. In Spain it became the plancha, the Japanese call it teppanyaki. The variety of dishes that can be cooked or grilled on a hot plate is countless. Thanks to the small outer rim, fats and oils also stay exactly where they belong - on the plancha.

- Half-ring enamelled cast iron, optimum heat retention
- Non-stick coating for low-fat frying & cooking
- With small outer rim so that fat or grilled food cannot fall off
- Secure support via three contact points
- Fire ring is created from two planchas
- Can be combined with BOWL 57 | 70 Grid or another BOWL 57 | 70 Plancha

--	---

BOWL 57 | 70 SEAR GRATE – The BOWL 57 | 70 Sear Grate is more than a cast iron grate. Together with the support ring and the handle, it offers a range of options for grilling and cooking over open flames that leaves even barbecue professionals in raptures. The cast iron grate extends the grilling surface and is ideal for searing when placed directly in the middle of the plancha ring. Positioned on the support ring, the flame proximity and thus the temperature can be regulated over various levels. The cast iron grate can be inserted and removed in no time with the included handle, which also creates space for a wok pan. Placed into the support ring over four different levels, the pan is positioned directly above the flames and adds a special touch to any dish.

- Solid cast iron grate, optimal heat retention
- Can be positioned on the height-adjustable rack or placed directly on the opening of the plancha ring
- Also ideal for using a wok or iron pan on the rack ring: safe standing thanks to the built-in three-point support
- Solid lifting tool made of cast iron for inserting / removing the cast iron grate
- Space-saving storage when dismantled
- Cast iron grate: solid cast iron with high-quality enamel coating
- Rack with ring: support ring made of solid cast iron, the rods made of high-quality stainless steel
- Suitable for the BOWL and BOWL 57 | 70 Plancha ring (consisting of 2 plancha halves)
- Optional extension with BOWL 57 | 70 Warming Ring

BOWL 57 Sear Grate Packed dimensions: 29x 29 x 6 cm Weight: 3,2 kg Item No. 00611 EAN 4064251006118	BOWL 70 Sear Grate Packed dimensions: 34 x 34 x 6 cm Weight: 4,5 kg Item No. 00615 EAN 4064251006156
---	--

BOWL 57 | 70 WARMING RING – With the BOWL 57 | 70 Warming Ring, the barbecue collection gains a boost that catapults your grilling and cooking options exponentially upwards. Simply placed on the support ring of the Sear Grate, the Warming Ring offers 60% more space over the flames to keep ready-to-eat delicacies at an optimal temperature or to gently prepare delicate grilled food such as bread or vegetables. Surrounding the cast iron grate, as a tray around an iron pan or solo as a second grilling level above the plancha ring - the Warming Ring offers countless facets that are waiting to be discovered.

- Warming Ring enamelled cast iron, optimum heat retention
- Non-stick coating for low-fat grilling & cooking
- Lowered with small outer rim so that grease or grilled food cannot fall off
- Can be placed on the rack of the BOWL 57 | 70 Sear Grate without assembly

BOWL 57 | 70 LID – Worries about flying sparks and ash clouds are a thing of the past thanks to the BOWL 57 | 70 lid. The glowing ashes remain safely sealed in the BOWL and even external weather conditions roll off the BOWL thanks to well thought-out details. Without slipping or wobbling, the lid sits stably on each BOWL version and can also be used as a storage surface.

- Cover after use to avoid flying sparks
- Weatherproof
- Strong, non-slip and wobble-resistant, can also be used as a storage surface
- Domed lid prevents water accumulation
- Side drip edge that prevents water from entering the BOWL
- Stainless steel, brushed

BOWL 57 Lid Dimensions: Ø 57 cm, height 1.8 cm Packed dimensions: 60.0 x 60.0 x 3.5 cm Weight: 2.4 kg Item No. 00478, EAN 4064251004787	BOWL 70 Lid Dimensions: Ø 70 cm, height 1.8 cm Packed dimensions: 72.0 x 72.0 x 3.5 cm Weight: 2.8 kg Item No. 00479, EAN 4064251004794

ASH TRAY Enamelled steel and stainless steel

STANDS Brushed stainless steel and enamelled cast iron

Low-smoke fire

Increased heat output

Can be fired with both
wood logs and pellets

High and low stand

MOON 45 – The unrivalled MOON with revolutionary burner technology based on the principle of wood gasification, makes flames and hearts beat faster. The design of the elegant black sphere appears weightless and adds a fascinating lightness to any occasion. Its double wall, consisting of an inner and outer bowl, allows for a split air supply. This groundbreaking design not only heats the fuel (either wood or pellets) in the heart of the fire basket, but also allows for a second, fascinating combustion below the opening. The air is heated in the double wall, rises to the top and burns the smallest particles of wood that can no longer escape as smoke. This effect not only creates an enchanting and unique interplay of flames, but also increases the heat output and drastically reduces the amount of smoke emitted, making it the most environmentally friendly fire basket available. The MOON is available with a choice of stands to suit any garden party. A masterpiece in the world of fire.

- ☆ **Ground-level fire basket with wood gasification technology**
- ☆ **Fascinating flame effect and low-smoke fire thanks to two-stage combustion process**
- ☆ **Can be heated with logs or pellets**
- ☆ **Combustion with little residue when using wood**

MOON 45 SPARK GUARD – Specially designed to prevent flying sparks, this highly effective guard creates a safe environment for undisturbed fire enjoyment. Simply slipped over the MOON's opening, the spark guard provides safety and a clear view of the fascinating dance of flames.

- ☆ **Cover mesh during fire to reduce flying sparks**
- ☆ **Easy to fit and remove**
- ☆ **Fits under the lid and cover**
- ☆ **Stainless steel ring with stainless steel mesh**

MOON 45 Spark Guard

Product dimensions: 33 x 33 x 6 cm, Weight: 0.4 kg
Packing dimensions: 35 x 35 x 8 cm, Weight: 1 kg
Item No. 00808, EAN 4064251008082

MOON 45 LID – Worries about flying sparks and clouds of ash are a thing of the past with the MOON lid. Glowing ash is safely contained within MOON, while clever details ensure that wind and weather are kept out.

- ☆ **Cover after use to prevent flying ash and sparks**
- ☆ **Weatherproof, sturdy and non-slip domed lid prevents water from collecting**
- ☆ **Complete coverage of the MOON prevents water ingress**
- ☆ **Can be placed over the spark guard**
- ☆ **Fits under the cover**
- ☆ **Brushed stainless steel**

MOON 45 Lid

Product dimensions: 43 x 43 x 15 cm, Weight: 1.1 kg
Packing dimensions: 45 x 45 x 17 cm, Weight: 2 kg
Item No. 00807, EAN 4064251008075

MOON 45 COVER – The protective cover for MOON is easy to put on and secure. The practical drawstring with cord stopper at the bottom of the cover ensures a firm and secure hold in all weathers. The material is water-repellent and protects against dirt and moisture.

- ☆ **Perfectly fitting protective cover**
- ☆ **Easy to fit**
- ☆ **Spark guard and lid can remain under the cover**
- ☆ **Drawstring with cord stopper at bottom**
- ☆ **Water-repellent and durable polyester/nylon blend fabric**

MOON 45 Cover

Product dimensions: 45 x 45 x 27 cm, Weight: 0.28 kg
Packing dimensions: 26 x 26 x 3 cm, Weight: 0.5 kg

Fire basket

Grill

Stool

Finish safely & cleanly

CUBE BLACK – Enjoy the warmth of the fire without any worries. Thanks to its sophisticated design, CUBE encloses the fire remains, reduces flying sparks and safely stores the ashes. The outer fire basket is simply turned over while the inside ash tray always remains in balance due to gravity. No ashes are dropped and the fire is choked.

Without worrying about the fire going out, the time by the fire can be enjoyed even more. Choose to grill on the grid or plancha, both easily adjusted in height and heat exposure. If no fire is burning inside the CUBE, it can be used as a stool, a bench or a side table – a multi-purpose piece of outdoor furniture which surprises, enthuses and gives lasting joy due to its high quality materiality.

CUBE CORTEN STEEL – The visual alternative to the black CUBE. The effects of weathering create a unique, individual rust patina on the CUBE surface, making this version captivating with its unique rust look in addition to its usual functionality.

CUBE COVER – Fits like a tailored suit to keep CUBE secure. The water-repellent material protects against dirt, moisture and scratches.

CUBE BOARD – With the solid bamboo board, the CUBE fire basket can be transformed into a pleasant seat, side table or flower stool with a flick of the wrist. The extraordinarily high surface hardness makes bamboo one of the most durable woods. Our additional lacquering makes it even more durable. Use only after CUBE has cooled down completely.

CUBE GRID – Thanks to the solid stainless steel grill grid, CUBE can also be used for grilling. The height of the grid can be adjusted thanks to the fire basket's cut-outs and thus the heat can be regulated.

CUBE PLANCHA – Whether fish, meat or vegetables: with the solid, enamelled cast iron plate, CUBE turns into a plancha grill. The plancha offers a smooth and a ribbed surface and can be adjusted in height thereby adjusting the heat thanks to the fire basket's cut-outs. There is room for two planchas at the same time, at different heights if required.

- ☆ Fire basket with optional extension to grill and stool
- ☆ Rotatable ash tray: fire basket can be turned over during burning, the fire goes out
- ☆ Stainless steel, powder-coated
- ☆ Optional accessories: CUBE Grid, CUBE Plancha, CUBE Board, CUBE Cover

TRIPLE

TRIPLE 120 | 90 | 65

MATERIAL

Corten steel

**CONDITION
AS-DELIVERED**

RUST PATINA
develops over time

Can be dismantled,
compact transport size

Feet for an elevated standing position
(option for TRIPLE 90)

TRIPLE – An homage to open fireplaces, interpreted with angular clarity in solid Corten steel. TRIPLE cultivates the archaic heat source through inspired simple functionality. Three identical, faceted segments fit together in a few simple steps to form a solid, large whole.

The fact that they can be dismantled allows for mobility and resource-saving transport. The adaptable grill grid is infinitely height-adjustable and swivels. There is space on the shelf for a pot of tea, mulled wine or grilled food, but it can also be swung inwards to cook a fiery stew.

TRIPLE GRID – The grid can be infinitely adjusted in height and swivelled. A vertical bar forms the guide, along which the grill grid can be adjusted vertically by 45 cm. It holds at any height by tilting.

TRIPLE TABLE – There is room for a pot of tea, mulled wine or barbecue food on the storage surface, but it can also be swivelled inwards, lowered and a fiery stew cooked.

TRIPLE POLE – If the TRIPLE Table is not to be placed on the same vertical pole of the grid, TRIPLE Pole gives it its own mounting.

TRIPLE 90 FEET – To give TRIPLE 90 a higher standing position, additional feet can be mounted. This is helpful to achieve an ergonomic grill height or to protect the ground from too much heat. When the feet are not needed at the moment, they can simply be swung inwards.

- ☆ **Fire bowl with expandable grill function**
- **Easy to dismantle, compact transport size**
- **Optional accessories:** infinitely height-adjustable and swivelling grill grid, shelf or height-adjustable hot plate
- **Up to three accessory bars can be mounted (TRIPLE 120/90)**
- **Elevated standing position possible due to add-on feet (TRIPLE 90 only)**
- **Corten steel, it develops a lively, unique rust patina**

BEER BOX

MATERIAL

Corten steel

Bottle opener

Stackable

Beer crate

Fire basket

Grill & stool

BEER BOX – The evolution of the beverage crate begins with the materials wood and metal and ends for the time being with plastic for economic reasons. But what if there is a life after its existence as a beverage container, if the crate is upcycled into a fire basket after its initial use? BEER BOX, a fire basket made of solid Corten steel in its simplest form, yet amazingly versatile: The large handles cry out for mobility - so off you go outside! The cardboard interior is also a firelighting material.

Thanks to accessories, the box becomes a barbecue or stool and the ability to stack makes sense for raising the fire basket as well as for storage and transport. The fact that the box is also an ideal advertising medium is in the nature of things and the integrated bottle top opener is simply a joy!

- ☆ **Beverage crate and fire basket with optional extension to barbecue and stool**
- **Integrated bottle opener**
- **Incl. cardboard inlay for bottles 0.33 l**
- **Stackable with another BEER BOX or standard beverage crate**
- **Optional accessories: BEER BOX Grid, BEER BOX Board**
- **Corten steel, it develops a lively, unique rust patina**

RUST PATINA
develops over time

Storage box for
fruit, wine, beer, wood...

Stool

Grill & fire basket

CRATE – CRATE follows in the footsteps of the legendary BEER BOX. While the beer crate was the source of inspiration for the BEER BOX, CRATE is reminiscent of wine and fruit crates. The usual material of wood is replaced by high-quality Corten steel. The result is a multifunctional product that can be many things: Wood storage, wine, beer or fruit crate, but also fire basket, stool and barbecue.

A spontaneous trip to the lake? CRATE is the perfect companion! In addition to drinks, the robust box can also be used to transport firewood for an atmospheric campfire or a small barbecue - and the grill grid comes along!

- ☆ **Fire basket with optional extension to grill and stool**
- Can also be used as a beverage crate, wine crate, beer crate, wood storage, fruit crate, etc.
- Stackable with another CRATE
- Durable stainless steel riveting
- Optional accessories: CRATE Grid, CRATE Board
- Corten steel, it develops a lively, unique rust patina

ELLIPSE

ELLIPSE

MATERIAL

Corten steel

**CONDITION
AS-DELIVERED**

RUST PATINA
develops over time

Fire basket & grill

swivelling

Optional stand elevation

ELLIPSE – A sculptural fire bowl made of Corten steel that surprises with unexpected functionality. It can take up a neutral position, but can also be turned towards a seating group or shield the flames from too much wind.

The foot provides stability and serves as a stand for the rounded shell. It also serves as an ash tray: when the fire has mostly burned down and is to be fully extinguished, the tray can be emptied into the foot by tilting it to one side. The foot is then closed with the empty fire bowl in the overhead position, which smothers the remaining fire and prevents sparks from flying.

- ☆ • Fire bowl with expandable grill function
- Swivelling fire bowl: neutral and tilted position
- Finish safely & cleanly: embers can be emptied into the foot, fire bowl covers foot
- Optional accessories: ELLIPSE Grid, ELLIPSE Foot for elevated standing position
- Corten steel, it develops a lively, unique rust patina

archiproducts design award 2018

ELLIPSE Fire Bowl
110 × 57 × 36 cm, 17.5 kg | gross 114 × 60 × 21 cm, 19.5 kg
Item No. 060101, EAN 4260447330528

ELLIPSE GRID – The solid stainless steel grill grid enables ELLIPSE to be used for barbecuing. The grid can hold food to 5 kg. The heat can be increased by pushing more embers under the grid or reduced by moving them to the side.

- ☆ • Grill grid with Ø 6 mm bars
- Grid is simply hooked onto the edge, no further assembly necessary
- Polished stainless steel

ELLIPSE Grid
60 × 40 × 7 cm, 3 kg | gross 60 × 40 × 7 cm, 3 kg
Item No. 060301, EAN 4260447330535

ELLIPSE FOOT – To give ELLIPSE an elevated stand, the foot can be attached to an additional foot element. This is helpful to achieve an ergonomic grill height, or to protect the ground from too much heat. Up to two additional foot elements are useful.

- ☆ • Additional foot element for increased stability
- Simple plug-in assembly
- Allows fire bowl to be raised by 18 cm at a time
- Use a maximum of 2 additional foot elements
- Corten steel

CONE

MATERIAL

100% stainless steel, powder-coated

Comfortable working height 85 cm

100% stainless steel

With the lid closed or half-closed, even larger grilled food can be cooked slowly and energy-efficiently. Just like in an oven, the heat reaches the food from all sides.

stepless & instant heat regulation

The distance between the charcoal and the food to be grilled is minimal, the air supply is open to the maximum
= maximum possible heat

The distance between the charcoal and the food is average, the air supply is open
= medium heat

The distance between the charcoal and the food to be grilled is maximum, the air supply is closed
= least heat

fire basket function

CONE – Is the first charcoal grill with effective heat regulation. It transfers the comfort of a gas barbecue to a charcoal grill and enables intuitive heat regulation by controlling the distance between the heat source and the food to be grilled via the air supply.

If high heat is required, for example for a hot barbecue, the charcoal grate and thus the heat source is raised. To reduce the heat, the grate is lowered and the air supply is automatically reduced. Since the charcoal grate can be raised to the edge of the funnel, CONE can be converted into a fireplace after grilling.

CONE MOUNTING – For those who are keen on an outdoor kitchen, the CONE mounting offers the ideal solution, as it can be embedded in a wooden, concrete or stone tabletop. The table is not included in the scope of delivery, but a mounting ring for mounting on the table is.

CONE BOARD – To keep the cool drink always to hand and to place the grilled food directly next to the grid until it is put on. The board is docked onto the barbecue in one easy step and removed just as quickly. Bamboo is one of the most durable woods thanks to its exceptionally high surface hardness and also contains a natural antibacterial agent, making it the perfect material for a cutting board.

CONE CAST IRON GRID – More than just a cast iron grid. The drip tray, specially developed for the extremely solid grid, makes charcoal grilling healthier than ever before - it ensures that no fat or marinade can drip into the embers, but the food still takes on the woody smoky note of the charcoal.

The cast iron grid comes in two parts, each with a drip tray, and can be folded - as expected from CONE.

CONE COVER – Fits like a tailored suit. The water-repellent material in combination with a high-tech outdoor zip protects CONE like a second skin against dirt and moisture, even when it is put into hibernation in autumn. The integrated carrying handles make CONE comfortable to transport.

- ☆ • Charcoal grill with infinitely variable heat regulation
- Can also be used as a fire basket
- Solid grid: Ø 46 cm, Ø 5 mm bars, polished stainless steel
- Incl. warming grid (Ø 50 cm segment)
- Incl. lid thermometer and 2 hooks for hanging barbecue tools
- Completely made of stainless steel
- Optional accessories: CONE Board, CONE Cast Iron Grid

TOOLS

BARBECUE TONGS – Thanks to their asymmetrical shape, they lie ergonomically and securely in the hand. The slightly slanted flanks also allow delicate goods to be gripped gently. Cut-outs at the ends provide grip and visibility - they give the tongs transparency in the area of action, making them the perfect tool for small prawns as well as T-bone steaks. The clue: With these tongs, the grid can be lifted and positioned over the embers.

SCRAPER – When grilling on the plancha, the scraper is essential. Inspired by the Japanese art of Teppanyaki grilling, there is no food that the scraper cannot assist with. Turning, cutting and stirring are among its specialties and it is even at your service when cleaning the plancha. During barbecue breaks, the scraper can be hung securely on a hook on the fire bowl, on the barbecue or in the kitchen and is always ready for its next use.

SPATULA – It unfolds its full potential when used on the grid. It turns larger as well as fragile grilled food to allow all sides to feel the heat of the fire. Thanks to its flexible handling and ergonomic design, the spatula is also helpful when cutting up and mixing grilled food right on the plancha. During barbecue breaks, it can be hung securely on a hook on the fire bowl, on the barbecue or in the kitchen, so it is always ready for its next culinary mission.

BBQ STARTER – It can be used like a classic kindling chimney, but also according to the höfats kindling principle, where the kindling chimney does not have to be turned upside down, but is simply pulled off upwards. There are no sparks or ash flying compared to conventional kindling stoves, making it far safer and more convenient.

FIRE TOOL SET – With the complete set consisting of fire tongs, blow poker and wooden base, the fire is under control. The blow poker does justice to its task of stoking the fire in two senses, because the fire can also be lit at a safe distance from the flames via the inconspicuous, integrated flame blower tube. With the robust fire tongs made of solid stainless steel, even heavy and burning logs can be lifted effortlessly and larger barbecued food turned thanks to strong serrations. Both together snap harmoniously into the weighted wooden base which makes the set easy to lift on the fire tongs and mobile for use on the fire bowl, stove and fireplace.

BLOW POKER ON STAINLESS STEEL BASE – The blow poker does justice to its task of stoking the fire in two senses, as it makes it possible to additionally start the fire at a safe distance from the flames via the inconspicuous, integrated flame blower tube. This very tube also makes it possible to place the poker upright on the stainless steel base and store it safely - for lasting enjoyment of the fire.

BLOW POKER – The poker does justice to its task of stoking the fire in two senses, as it makes it possible to additionally start the fire at a safe distance from the flames via the inconspicuous, integrated flame blower tube

FIRE TONGS – Even burning logs stay firmly in your hand with the robust fire tongs made of solid stainless steel. The strong serrations allow a secure grip to lift firewood or to turn larger grilled food. For storage, the fire tongs can effortlessly snap into the weighted wooden base (accessory) and be used in a mobile way on the fire bowl, stove or fireplace.

☆

- Ergonomically shaped grill tongs with grid lifter function
- Perfect length
- Cut-outs at the ends provide better grip and visibility

Item No. 00253, EAN 4064251002530

TOOLS

STEAK TOOLS – This is a tool that does justice to a perfect piece of meat. The sharp blade does not tear the meat fibres, but cuts them precisely, which keeps the meat juicy and aromatic. Solid, forged from one piece, the brushed, satin-matt stainless steel lies firmly and perfectly balanced in the hand. Stainless, dishwasher-safe and form-stable, the höfats steak tools are indestructible and guarantee years of enjoyment of good meat. High quality packaged in a wooden box, they are the perfect gift for any meat lover and anyone who appreciates good food. By the way, the höfats Steak Tools also perform with Pizza.

APRON – The sophisticated höfats apron turn you and your barbecue and cooking skills into a winning team. Its robust and easy-care material is tailor-made for you, because thanks to the continuous cord that runs from the neck over the sides to the hips, the apron can be adjusted to the body size with just one movement. This makes it fit perfectly right away and offers maximum wearing comfort. The simple integrated pocket and the towel strap are delightful. It comes already equipped with a high-quality linen towel.

FIRE GLOVES LEATHER – The robust höfats barbecue gloves made of pure, heavy suede and Kevlar are hand-sewn and made to last. They are extremely non-slip and heat-resistant and make barbecuing a safe pleasure, not least thanks to the extremely pleasant inner lining.

FIRE GLOVES ARAMID – As snug as a second skin and heat-resistant up to 500°C. Breathable aramid fibre is the special material of these fire gloves, which allow you to safely handle extremely hot objects. The silicone nubs on the entire palm ensure that you can grip even delicate objects reliably.

FLAME-GRILLED SALMON BOARD The Finnish classic offers space for any fish and adds its unique flavour above the aromatic flames of the fire. The fish fillet is securely fixed under the stainless steel support on the solid beech wood board and can be attached to any höfats fire bowl or basket. To ensure that the fish is cooked evenly and gently, the flame-grilled salmon board fits into the mount from both sides and the different angles of inclination between the board and the flames guarantee optimum temperature handling.

PREMIUM FIREWOOD – Our premium firewood from German forest stands is high-quality hardwood from sustainable forestry. Thanks to technical drying, an almost weathering-free quality and a guaranteed water content of less than 20 percent is achieved. In this way, smoke-free fire pleasure is achieved with our fire baskets, and with a matching plancha, barbecuing over an open fire works perfectly.

JOHNNY CATCH – The probably best wall bottle opener in the world catches bottle caps magnetically or in a catch cup! 100% stainless steel. Johnny Catch does not need screws or dowels, it is mounted on the wall with a high-quality double-sided adhesive tape from 3M. The adhesive tape adheres to all surfaces, even very uneven ones.

Johnny Catch is a must: for the style-conscious beer drinker, lemonade lover, craft beer crack, in the pub around the corner, clubhouse, band room, club, music sports hall, construction trailer, bling bling club, in your favourite bar, kebab stand, gazebo, Stylo kitchen, chaos flat-share, party shed, ski hut, beach bar, workshop, on the roof terrace, next to your barbecue, fridge... Cheers!

"FUNCTIONAL DESIGN MEETS ATTENTION TO DETAIL"

The Wirtschafts Woche headlined an article about hofats

MEDIA SERVICE

A picture says more than a thousand words. We are happy to provide you with our image material for marketing our products. Our media service contains product data and images for all seasons and occasions.

<https://t1p.de/hofats-media-service>

CUSTOMER FEEDBACK

- **Over 50%** of all hofats products are given as **gifts to friends & family**.
 - **87%** of our customers are interested in at least one **other product from the hofats range**.
 - **97%** of our customers would recommend hofats to others without **hesitation**.
- (Customer survey July 2022, n = 3,027)

With fire and passion, we create fascinating products from uncompromising material - that is höfats - a fire story - our way of thinking and developing products, creating an unmistakable identity through puristic form and inspiring function. Always with perfection down to the last detail, so that a great idea becomes an authentic höfats product. A product for uniquely beautiful moments - experience your very own fire story.
