

# TSAO RU

professional manufacturer  
& exporter from Taiwan

Since 1987

## THE PROFESSIONAL MANUFACTURER **SINCE 1987**

- 1990** Produced PP, PE, EVA sheets with advanced extruders made in Italy.
- 2001** Succeeded in co-extruding cutting board with “sandwich” print.
- 2002** Started developing non-slip and flexible cutting mats.
- 2005** Multi-layered co-extrusion gripper cutting boards and mats were patented by the Taiwan, Germany, USA and China.
- 2008** Obtained ISO 9001:2008 Certification.
- 2009** Passed Disney Factory Audit.
- 2010** Gained Taiwan, Germany, USA, Japan, Korea, Australia and China patents for multi-layered injected cutting boards.
- 2013** Certified by BSCI Audit in high score (98.37%), remains valid for 3 years.
- 2014** Gained Germany patent for multi-layered co-extrusion gripper cutting boards and mats. Obtained the design patent for curved cutting board in Taiwan, Germany, USA and Japan.
- 2015** Passed Costco SQP, Social and Security Audits.
- 2016** BSCI re-audit overall rating: A (Outstanding) and SQP achievement award.
- 2017** Certified by SCAN Security Audit in high score (95%).
- 2018** BSCI re-audit overall rating: A (Outstanding). Obtained ISO 9001:2015 Certification. Passed GMP, Social and Security Audits.
- 2020** BSCI re-audit overall rating: A (Outstanding). Passed GMP, Social and Security Audits.
- 2021** Obtained ISO 9001:2015 Certification. Passed GMP, Social and Security Audit.
- 2022** BSCI re-audit overall rating: A (Outstanding). Passed GMP Audit. SIAA approved with registration number: TW0123315X00010. GRS scope certificate number: IDF-22-402541. Gained 2022 D&B TOP 1000 Elite SME Award.
- 2023** Succeeded in co-extruding soft 2-tone cutting mat. Passed GMP and Security Audit.
- 2024** BSCI re-audit overall rating: A (Outstanding). Passed GMP Audit.

## ALL OUR ECO-FRIENDLY PRODUCTS MEET **LFGB, FDA & REACH REGULATIONS**

### Sustainability

### Our promise

#### ■ Make plastic eco-sustainable and ethical

Shifted basic production processes for our green products. We collect production waste or defective pieces to be reintroduced into the production process for new products. At least 20% of pre-consumer recycled plastics are used in our green products.

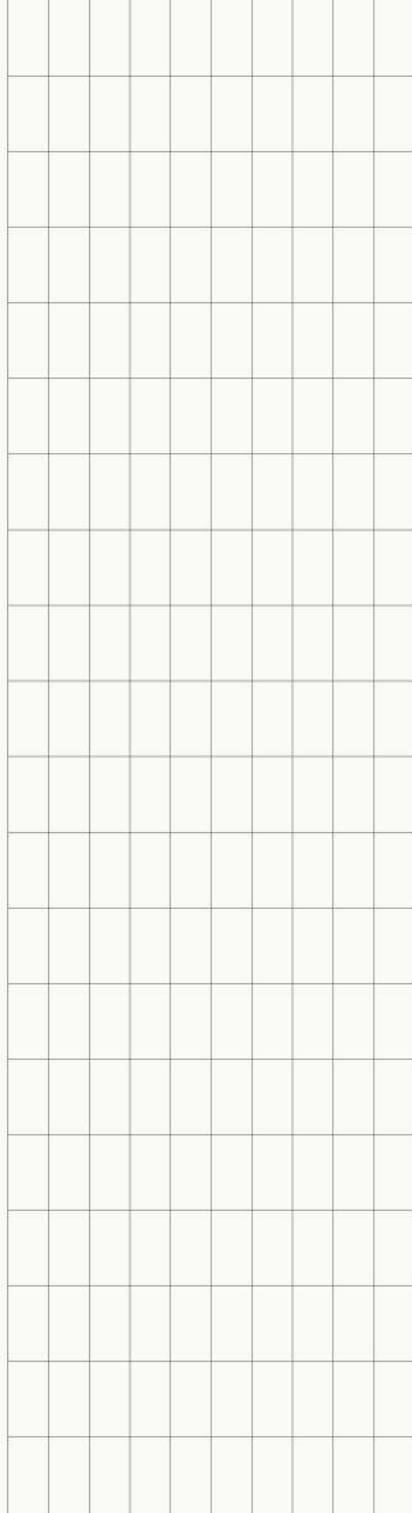

#### ■ Use eco-friendly materials

We only use recyclable and recycled plastics for environmental responsibility. For GRS-certified green products, we use 20-50% of post-consumer recycled plastics with Transaction Certificates.

#### ■ Create a sustainable future

Reduce carbon dioxide emissions by 1.56 kg per kilogram using recycled plastic materials. Our green goal is not only to expand our effort toward Zero production scrap left in our factory but to extend product life by multiuse design. We can promise a safe future for the new generations.

## Chopping Board

### SPECIFICATION

**Size**  
45×30cm

**Thickness**  
20mm

**Patent**  
Germany  
USA  
Japan  
Australia  
Korea  
Taiwan  
China

### FEATURE

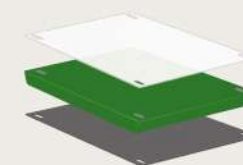

Designed for use by professional chefs and frequent use in the home kitchen.

The clever angled edges allow a hassle-free transfer of the ingredients onto a plate or hand under the board.

2-sided silicone non-slip feet keep the board in place for safe cutting, and keep cut food in control.

Reversible 2-tone chopping board prevents cross-contamination of different food.

### Construction

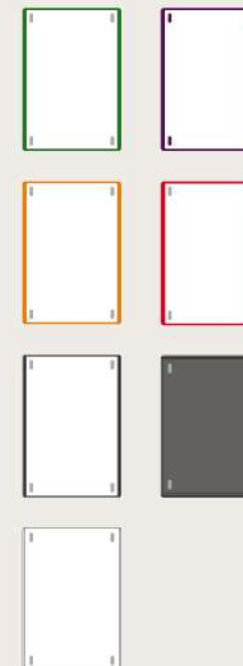

EASY  
HOLDING

2-TONE

NON  
SLIP

## FEATURE

Maximize your workspace with this BPA-free cutting board.

Break free from traditional non-slip feet or edges that hinder cutting efficiency.

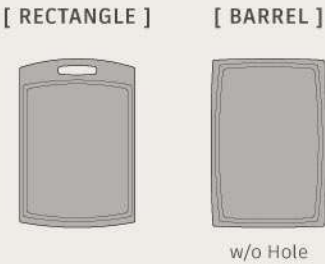

Its triple-layer design offers limitless color combinations to reflect your brand's uniqueness, with the middle layer made from GRS-certificated recycled material promoting sustainability and carbon reduction goals.

The built-in non-slip surfaces on both sides ensure stability during use, while integrated juice grooves catch liquids, keeping your countertop dry and clean.

The reversible design doubles the cutting area, with a two-tone look to avoid cross-contamination.

Fine-tuned hardness is gentle on blades, reduces hand fatigue, and minimizes cutting noise.

### FEATURE

Marble effect comes from Natural Mica Mineral.

Natural stone source creates a rich and elegant texture.

Mica increases the surface strength but not dull knives.

High-temperature resistance, non-porous, non-absorbent that will not harbor bacteria.

Silicone non-slip feet keep the board in place for safe cut.

Not only a great assistance in your kitchen but also a serving tray in your dining table.
