Complements

Every detail matters when it comes to customization. We came up with the Complements range to help you express your own identity and shape your unique collection. Each piece can be used either on its own or mixed & matched with any other, adding character and expression to your table.

Photographs carefully taken next to an ancient olive tree that has stood witness to the passage of time for around 870 years.

RECYCLED GLAZE

NEW SHAPES

Coral Candle Holders

Coral reefs, essential to the planet's balance, shelter 25% of marine species in less than 1% of the ocean floor and play a crucial role in regulating atmospheric carbon dioxide (CO₂). Inspired by the beauty and function of corals, our candle holders capture the magic of the deep ocean, creating a special atmosphere.

NEW SHAPE

Sea Urchin Consommé

Inspired by the shape and texture of a sea urchin, it is a tribute to the ocean. The exterior, delicately textured with pointed details, evokes the protection and complexity of sea urchins, while the smooth, elegant interior cradles the consommé with grace and sophistication. Every detail has been designed to create a culinary experience that blends the robustness of marine nature with the elegance of haute cuisine.
