The Fragrances

Tender affection

black amber, lemon, muguet

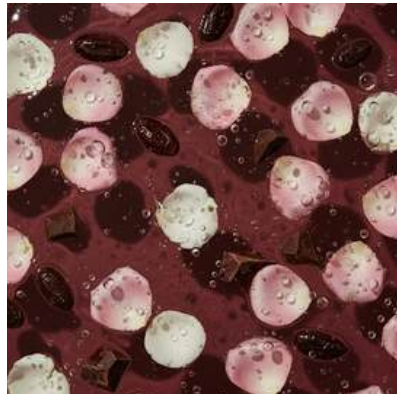

Gentle yet magnetic. With bright citrus opening into soft florals and grounded amber, this scent feels like an embrace you never want to let go of. A reminder that strength can be tender, and tenderness is strength.

Quiet rebellion

tonka bean, cacao, rose

This is for the dreamers who dare. A fragrance where the richness of cacao and the warmth of tonka beans meet the delicate beauty of roses. It's bold, unexpected, yet undeniably elegant — a quiet rebellion against the ordinary.

Echoes of kindness

mimosa, iris, bergamot

Light, airy, and graceful. Mimosa and iris bloom into freshness lifted by bergamot, a fragrance that lingers softly, like kindness itself. It's subtle, timeless, and endlessly comforting.
