

FOH TABLE

The perfect combination of flexibility and stability

THE OPTIMUS FOH TABLE - FLEXIBILITY MEETS STABILITY!

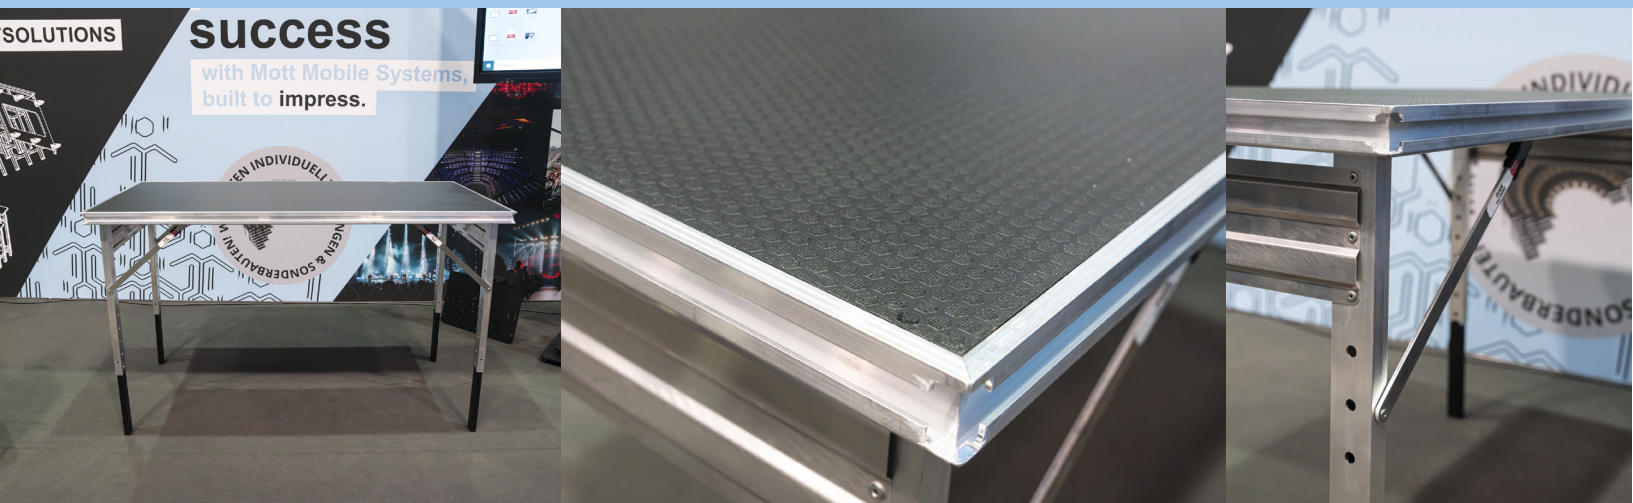

The Optimus FOH table is the ideal solution for event technicians and DJs looking for stable, practical and easy-to-use equipment. Thanks to its robust construction and adjustable heights (60-90 cm), it adapts flexibly to any location. The long-lasting plywood board and the space-saving folding function ensure effortless transportation and quick set-up - perfect for professionals who travel a lot and need a reliable, multifunctional solution.

Advantages as a FOH table:

- **Height-adjustable (60-90 cm)** for flexible adaptation to work requirements
- **Robust plywood board** for long-lasting use.
- **Lightweight and foldable** for easy transportation and space-saving storage.
- **Quick set-up and dismantling** saves time in hectic event environments.
- **Linkable** - Multiple tables can be linked together to create larger work surfaces

FOH-TABLE

As a DJ table, the Optimus FOH table also offers everything you need to optimally support your performance. With a generous surface area of 70 x 140 cm the table offers enough space for DJ controllers, turntables, mixers and other equipment. Thanks to its stable construction, the table remains safe and reliable even with intensive use. The adjustable height ensures that the DJ table can be perfectly adapted to the individual requirements of each DJ.

Advantages as a DJ table:

- **Large work surface (70 x 140 cm)** for DJ equipment such as turntables and controllers
- **Height-adjustable (60-90 cm)** - ideal for an ergonomic working position
- **Robust plywood board** for high load capacity
- **Lightweight and foldable** - Easy to transport and quick to set up

Technische Daten auf einen Blick
