VERTIDRY

NEW

Vertical dryer used for versatile coating processes, contactless impregnation and other fields of application

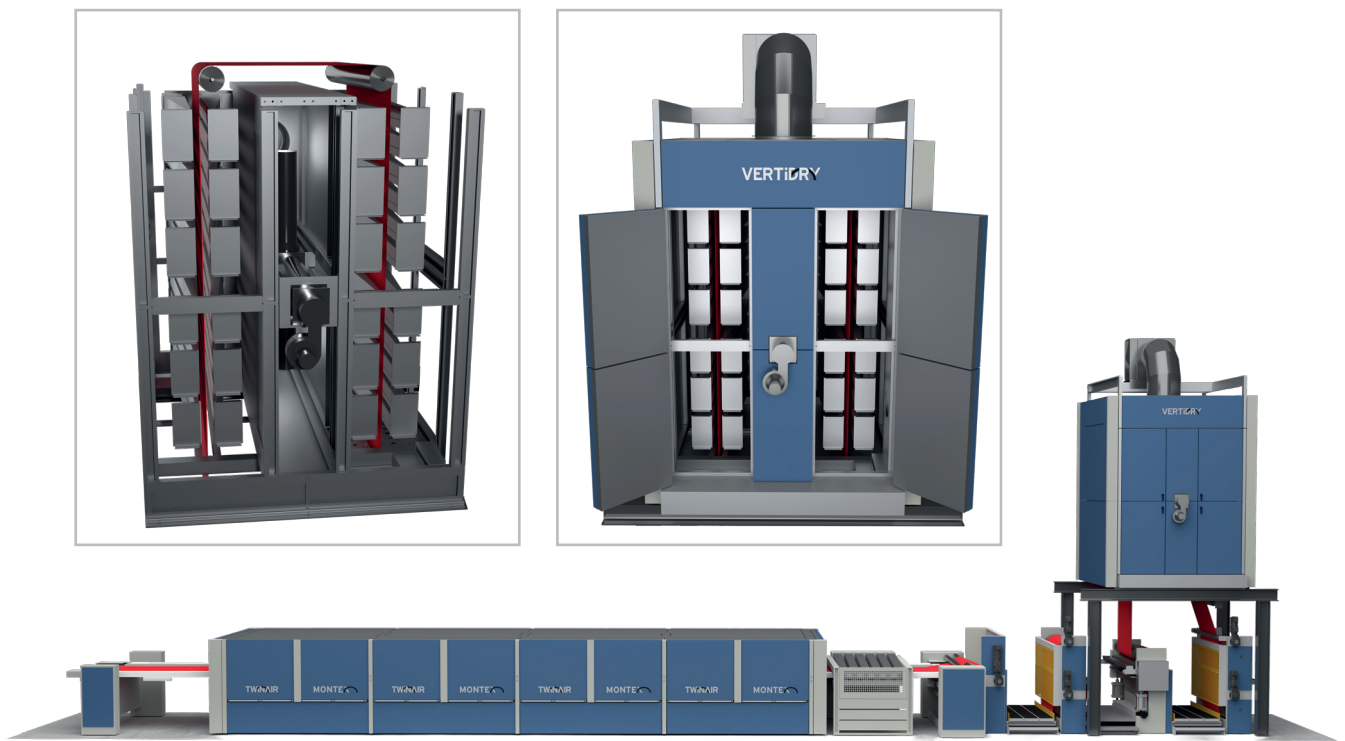

The new vertical dryer has been designed for special applications especially for treatment of technical textiles with a space saving set-up. With its contactless drying it helps to produce high-quality fabrics with added value.

- Multi-storey possible
- Different heating options possible, also in combination

Benefits

- Contactless convection drying for versatile processes
- Different nozzle types available
- Easy access for roller cleaning
- Pre-erected thus leading to faster erection time
- Integrated exhaust air duct
- Can be connected to a heat recovery system like the Monforts Energy Tower

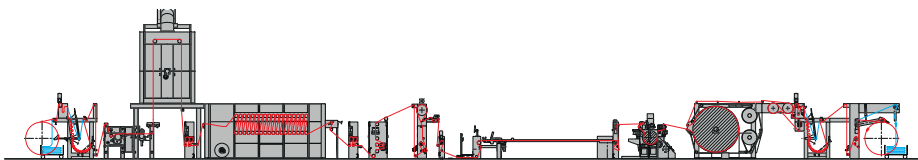

Examples for the use of a vertical dryer

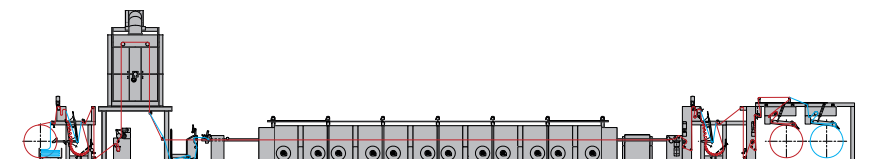

1. Airbag Finishing with Coating

2. Denim Finishing with EcoApplicator

3. Denim Oiling and Waxing with Padder
