Product Range Manager (m/f/d) Residential Enclosures and Meter Boards

You are a passionate product manager with leadership experience? Electrical Engineering is your expertise and you want to drive our product portfolio to success?

We are currently looking for our future Product Range Manager (m/f/d) Residential Enclosures & Meter Boards based in Blieskastel for a permanent contract.

Mission

As a Product Range Manager (m/f/d) dedicated to the product portfolio of residential enclosures and meter boards, you manage product and intra portfolio systems in the scope from idea to market launch through the product lifecycle to end-of-life. This you do in line with the roadmap by analyzing the market and defining the VP and specifications in order to ensure a competitive, profitable and sustainable offer. In delegation of the Senior Manager, you manage a small team of product managers in Blieskastel.

Our offer

You can expect a position with responsibility and variety in an international and innovative environment and motivated team. We offer intensive integration, an attractive and fair compensation as well as internal and external training.

Profile

- You hold a degree in Electrical Engineering or a similar degree to provide the technical understanding and to make it easier to deep dive in the dedicated product portfolio
- As an experienced manager, you have got several years of management experience in an international technology and marketing environment
- You are fluent in English and German to collaborate easily with your international colleagues, French language skills would be a plus
- Your willingness to travel within Europe (20%) is expected to be close to your customers, internal and external stakeholders and colleagues

Your challenge

Take your future chance and convince us. You can upload your application easily in our Groupwide application management system. Please use the opportunity of the online application, 10 minutes are enough! We are available in advance for your specific questions.
