

A woman with long dark hair, wearing a grey suit, is sitting on a wooden windowsill. She is holding a black reed diffuser with several black reeds. Her right hand is resting on her head, and her left hand is holding the base of the diffuser. The background shows a window with a view of a brick building and a brick wall to the right.

## **ABOUT US**

We are the producers of palm and soy wax, scented and odorless candles, home scents and car scents. We started our activity in spring 2017 in Klaipėda. We pour every candle with our own hands with a lofty mood and great love for the products we create. We select scents and production materials slowly and thoroughly, and our collections are created with the help of professional product designers. We are here to create coziness in our customer home, at the same time basing our activity on a slogan WE LIVE COZY

## **SCENTS**

Scented candles and scents are made using aromatic and essential oils. Scented oils are produced in FRANCE maintaining the highest production standards, quality and safety requirements.

## **RESPONSIBILITY AND SUSTAINABILITY**

In pursuing our activities, we try to create a sustainable and socially responsible business, we encourage not to waste natural resources, also we participate and support various social actions and projects. We do not produce industrial waste while producing our products, and poor quality production is recycled. In production we aim to use as many natural materials as possible from renewable sources, also we use energy efficiently for production.

## **WAX**

We use only natural palm and soy wax to make candles, which is obtained from renewable sources. Due to production technology and palm wax properties, the surface of candles is covered with a beautiful crystalline texture. Each produced candle has its own unique texture. The burning time of palm and soy wax candles is several times longer than the burning time of candles made of paraffin. That gives you an exclusive opportunity to enjoy the warmth and beauty of candles much longer

## **ECO PACKAGING**

ECO All Candle Family products are packaged in recycled paper packaging. Recycled paper sheets are also used to secure the goods in the packaging. All packaging can be recycled and we urge our customers to sort the packaging waste.

# REED DIFFUSERS

# REED DIFFUSER

## "RAFFINÉ"

"RAFFINÉ" reed diffuser was born through collaboration with French perfumers from Grasse to develop the best formula. Our goal was to create a sophisticated and elegant fragrance that would elevate any space, and our partnership with the renowned perfumers allowed us to achieve that.

### Fragrance notes & packaging

The fragrance notes in the reed diffuser include the woody scent of oak, the sweet and tart aroma of wild berries, and the subtle earthy tones of birch. Together, these scents create a refreshing and natural fragrance for any room in the home.

The packaging was carefully crafted to provide a clear view of the actual product, giving the customer a sense of transparency and trust. The luxurious design adds a touch of elegance, making the product even more appealing to the eye.

# WISHFULL CANDLES

Natural wax-scented handmade candles infused with fragrant oils. The scented oils and natural wax in the candles allow the candles to smell for a very long time not only after lighting, but also when standing in the room. Candles are cast from special wax and at the right temperature, giving the candle surface an exceptional "frost" structure.

POWDER  
CANDLE

1.

Pour the candle powder into a glass, ceramic or other non-flammable container.

2.

Pour the candle powder into the container. Insert the wick into the poured wax and leave it sticking out about 1 cm above the wax.

3.

Light the candle and enjoy the wonderful light and warmth of the candle.

A powder candle is not an ordinary candle, it is a candle that will awaken your creativity, a candle that will never be the same as before. Candle powder is made from plant-based products, so it is safe to use, the candle does not release toxic substances when burning. The solidified wax is covered with a wonderful crystal structure, so the candle will delight with its appearance not only when it is burning, but also when it is extinguished.
