

Create your signature candle

Elevate your brand with our custom-made scented candles, crafted to reflect your unique identity.

We offer a wide range of captivating scents, specially formulated to complement the qualities of rapeseed wax. All our scented candles are poured in Portugal, using OEKO-TEX® certified wicks and rapeseed wax, a renewable material with a significantly lower climate impact than paraffin and soy wax. (The climate impact, including the combustion of the candle.)

We focus on making scented candles with clean fragrances that require no special labeling. Because we care about safety and sustainability, we avoid fragrances that could harm the environment or human health. Instead, we choose great scents from top fragrance houses, offering a delightful aroma without compromising on safety. Our clean fragrances comply with CLP regulations, eliminating the need for content declaration and allergy warning text on our products.

Our products are RAL-certified and our factory is ISO-certified, ensuring high standards and continuous improvements. Our packaging is also FSC-certified, promoting responsible forest management.

Creating a candle that represents your brand is simple and easy with our four-step process.

What does a clean fragrance mean for our candles?

No Diethyl phthalate

No CMR (Carcinogenic, Mutagenic, or toxic to reproduction) substances in the fragrance oil*

No CLP labeling is required

The candle is not classified as hazardous for aquatic life

No environmental or additional health pictograms on the packaging

*Exceptions may apply for fragrances containing natural essential oils"

1. Choose Your Fragrance

Choose from our collection of interesting, clean fragrances, carefully developed to enhance the natural qualities of rapeseed wax. These scents are created in collaboration with Sozio, a distinguished French fragrance house known for their exquisite creations.

2. Design Your Glass

Our high-quality glass containers come from Europe, offering endless design possibilities. You can decorate the glass inside, outside, or both, with options for fine prints or beautiful labels to enhance your brand's image.

3. Decide on a Lid

Opt for a lid or not, with choices including paper top cards, cork lids, and wood lids to suit your aesthetic preferences.

4. Customize Your Packaging

Choose and design your packaging to perfectly complement your candle, ensuring a cohesive and appealing presentation.
