What Easy World **Does**

Easy World Group (eWorld) is a leading value-added distributor and solution provider of data communication, industrial automation, mission-critical, enterprise data, voice, security, industrial networking, as well as telecommunication products and solutions across the Middle East.

With an abundant experience in delivering end-to-end solutions to a diverse customer base, we are fully capable of providing clients with a wide range of core competencies and value-added services.

As a certified ISO 9001:2015 company, we back our products and services with a highly skilled and licensed team of professionals.

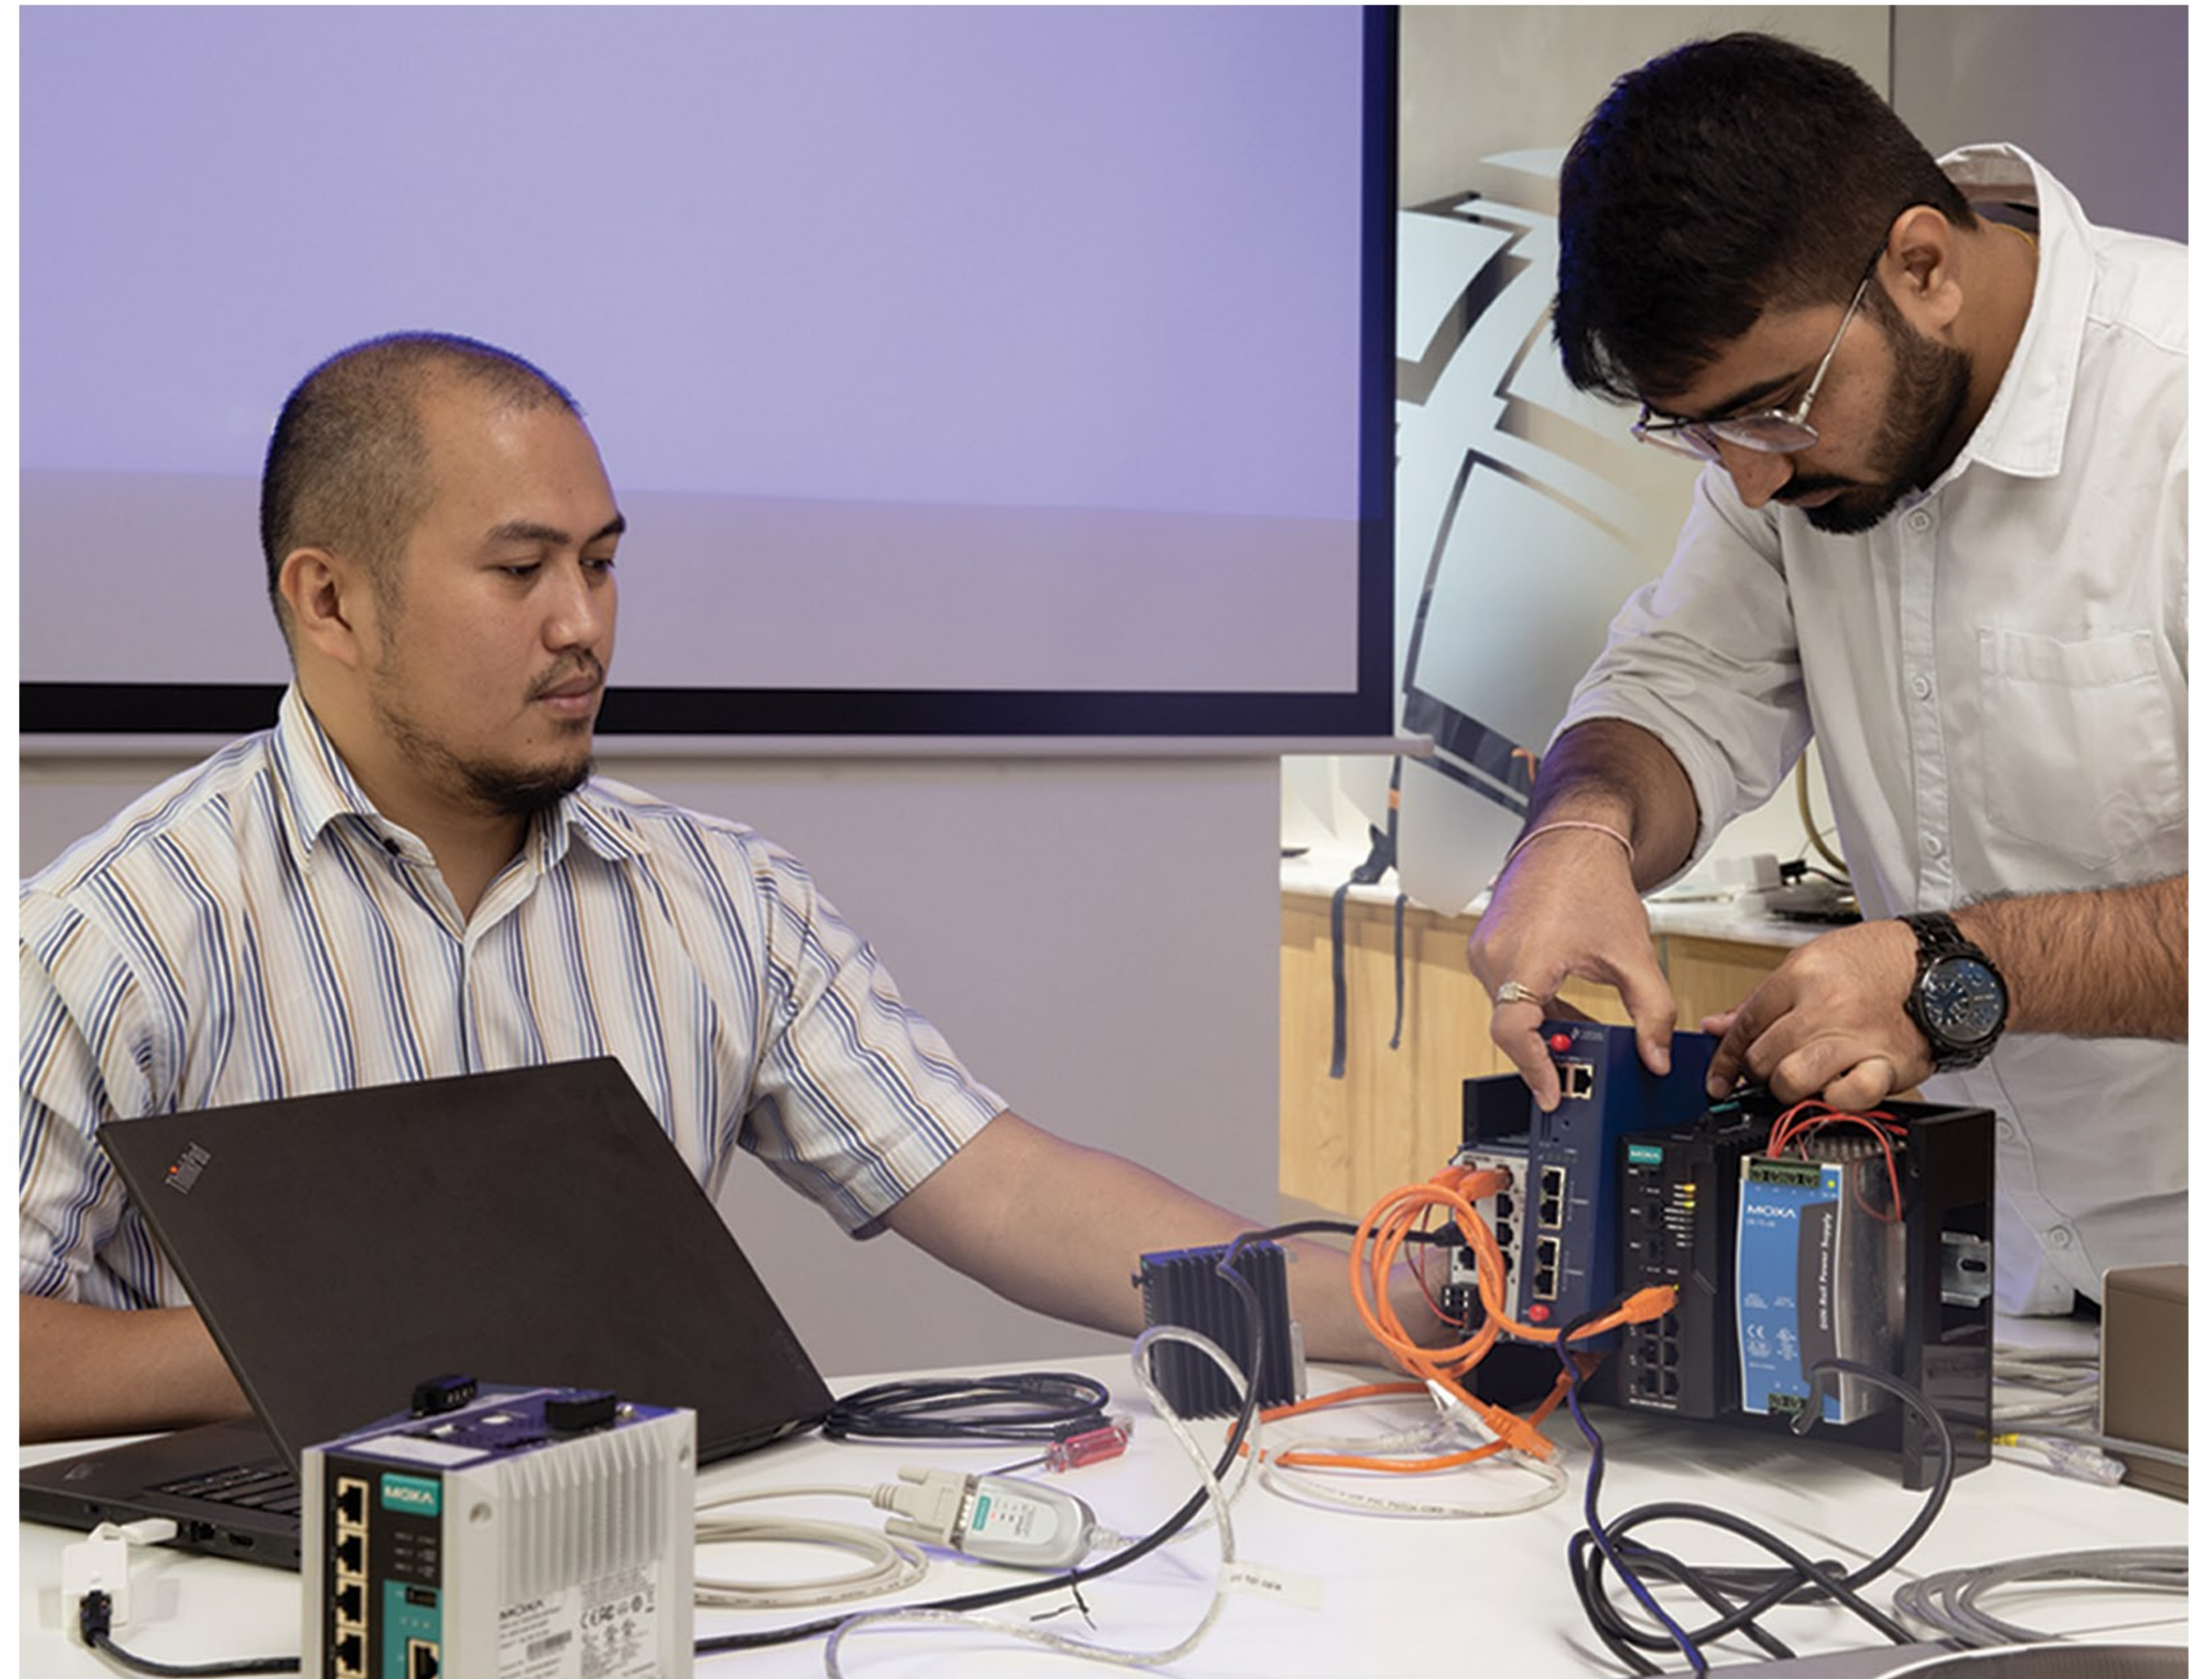

PRE-SALES AND AFTER-SALES SUPPORT AND PROFESSIONAL SERVICES

Pre-Sales and After-Sales Support:

Whether you are looking to upgrade infrastructures, add network management capabilities, or simply seek for a company to support you on your industrial communication and automation equipment, Easy World's panel of certified engineers can offer you extensive activities including:

- Industrial Network Audit (On/Off-Site)
- High-level Network Consultancy
- Design and Recommendations
- Feasibility Study
- NERC CIP Cyber Vulnerability Assessment
- Configuration and Integration of Equipment
- Post Implementation and Remote Support
- Warranty in Accordance with Manufacturers' Guidelines
- User-Friendly RMA Process

Easy World is the right partner when you need expertise in designing, implementing, and managing the Industrial data communication network/automation solutions.

Training:

Easy World offers a wide range of educational services ranging from in-house training of standard courses to on-site customized courses tailored to the customer's needs, expectations, and application.

eWorld's Educational Services team thrives on providing its customers with the essential practical skills to ensure they have the right level of knowledge and expertise to understand the various technologies associated with Industrial data communications, network infrastructure, and automation technologies.

Focused on actionable insights, not just theory, but also hands-on experience, eWorld's in-person training courses on Industrial Protocols, Security, Routing, Switching, Voice, Wireless, and Automation are delivered by network consultants (experienced & certified engineers in analyzing and implementing solutions at industrial operating facilities).

PRODUCT CATEGORIES

01 Industrial Data Communication

02 Wireless Communication

03 IP Surveillance & CCTV

04 Industrial Automation

05 Industrial Computing

06 IIoT Cloud Solution

07 IP Telephony & VoIP

08 Cybersecurity

09 DIN-Rail Power Supplies

Industrial Data Communication

Industrial Ethernet Solutions

- Secure Routers
- Ethernet Switches
- Network Security Appliances
- Secure Remote Access
- Ethernet Media Converters
- Ethernet Gateways
- Ethernet Extenders
- Network Management Software

Industrial Serial Connectivity

- Serial Device Servers
- Serial Converters & Repeaters
- Protocol Gateways
- Fiber Optics Modems
- USB-to-Serial Converters/USB Hubs
- Multiport Serial Boards
- Surge Protectors

02.

Wireless Communication

Industrial Wireless

- Single and Dual Radio Wireless AP/Bridge/Client
- Point-to-Point Broadband Radios
- Point-to-Multipoint Broadband Radios
- Rail Wireless LAN
- Wireless Access Controllers
- Microwave Backhaul

Industrial Cellular

- Industrial Cellular Routers (GPRS/3G/4G)
- Industrial Cellular Gateways (GPRS/3G/4G)
- Rail Cellular & WLAN Router

03.

IP Surveillance
& CCTV

Outdoor Cameras for Critical
Infrastructures

Explosion - Proof Cameras

Outdoor Thermal Cameras

Ultra Long Range Cameras

EN 50155 Cameras

Industrial Video Encoders

Camera Housings

- (Ex-Proof, Stainless Steel,
Liquid-Cooled & General Purpose)

Washer Tanks and IR Illuminators

Industrial Automation

Operator Panels & HMIs

- Industrial/Ruggedized HMI & Panel PC
- Industrial/Ruggedized Display
- HMI Software
- SCADA Software

Control Systems

- Industrial Controller
- Modular PLC
- Compact Controller RTU
- Automation Software

Distributed I/Os

- Ethernet I/O
- Serial I/O
- Wireless / Smart I/O

BMS & Factory Automation

- PC-based Factory Automation
- Machine Automation
- Software Solution

05.

Industrial Computing

Industrial Fanless Computer

Embedded Computing

Digital Signage Player

AI Edge Computer

Industrial Rackmount Computer

Vehicle Telematics Computer

Modular Vehicle Computer System

Railway Computer

06.

IP Telephony
& VoIP

Innovaphone PBX

IP Adapter

IP Phones

Mobile IP-DECT Solutions

Mobile WLAN Solutions

VoIP Gateways

IloT and Cloud Solution

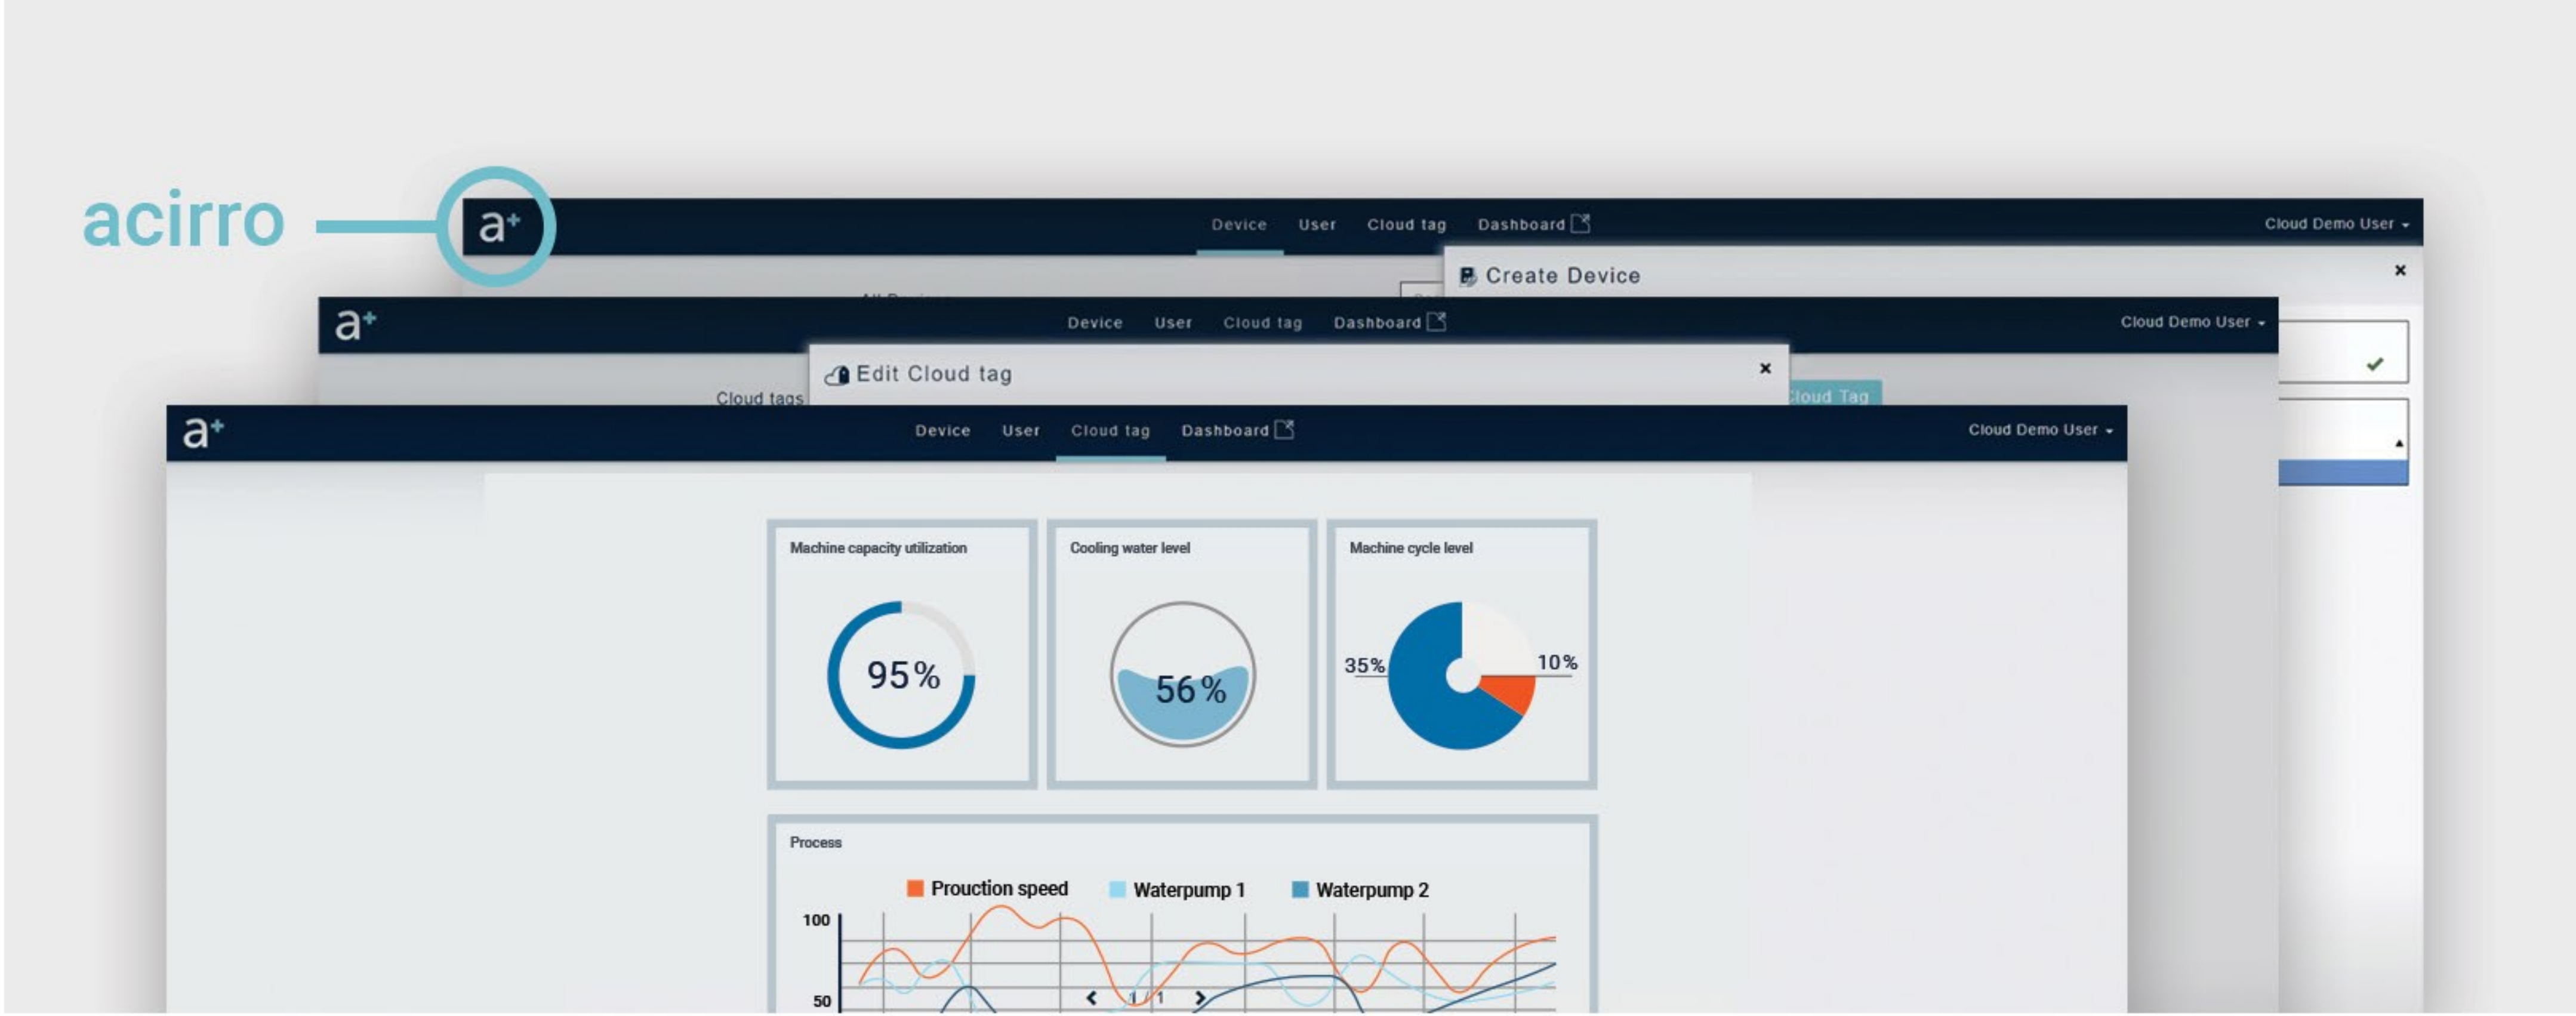

Cloud Based IoT Platform

IoT Gateway

Protocol Converter

Mobile HMI

Hands-Free Wearable Android Tablet

08.

Cybersecurity

IPS/IDS Solutions

Next-Generation Firewalls

Security Management Software

Secure One-Way Communication -
Data Diode

Secure Remote Access Solution

DIN Rail Power Supplies

Single-Phase Power Supplies

Three-Phase Power Supplies

DC/DC Converters

IP54, IP65 and IP67 Power Supplies

Power over Ethernet (PoE)

DC-UPS
