

FOR MAXIMAL SHARPNESS.

The cutting-edge knife sharpener with the
innovative two-angle technology.

GIESSER | MAX PATENT

THE NEXT GENERATION OF KNIFE SHARPENERS.

Quality materials and innovative technology combine to deliver unprecedented sharpening results.

With specially developed sharpening rods that automatically adjust their position, our MAX knife sharpener redefines manual honing and polishing – so you can make a statement and take your blades into the future.

SAF

Self-adjusting function for outstanding sharpness and effortless handling.

Special rod surfaces for diamond honing and ceramic polishing.

Two sharpening angles for knives, one small (30°) and one slightly larger (40°).

The premium sharpening system
for maximal knife sharpness.

EASY TO USE

Opposed, spring-guided sharpening rods automatically adapt to the angle of the blade to achieve optimal results effortlessly.

Product features at a glance

- for knives with a smooth cutting edge
- switch between two sharpening angles
- spring-guided sharpening rods with a self-adjusting function (SAF)
- diamond honing, ceramic polishing

To hone and polish a knife, dip the blade in water and guide the knife through the rods in elliptical movements.

Watch the MAX
instruction video.
