## About us.

### Fun & Functional Gifts

Giving is fun. And it becomes even more fun if the gifts are not only funny, but also make sense and will be used in everyday life. It's our mission to create products that are fun and make people laugh, as well as solving a problem and becoming a utensil. "They're fun products and innovative products that have not been around like that. They make people smile and are functional. Plus they tell a story and one can talk about them" Dr. Gabriel, founder and CEO of the company explains.

### BeepEgg®

Our company has been built on solving a technical problem, not on a need for a gift. We were not able to boil eggs on point. "Sometimes they were too soft, sometimes they were too hard, but rarely the way I wanted them to be" Dr. Gabriel remembers. The "brain" behind Brainstream wanted to invent

a product which solved his problem. So we hatched BeepEgg® – the singing floating egg timer – our first and most successful product.

### Family Business – Made in Germany

The family owned and run company is committed to „Made in Germany“, as production takes place in Bielefeld, Germany. Most components are locally sourced and will be purchased from suppliers nearby. This does not only feel right, it also guarantees high quality and flexibility.

### Soulmate Products

As we're not the only small company with great ideas, and as many inventors don't have a network to enter markets, we sometimes join forces with other creative minds and produce or distribute soulmate products of other inventors.

# Al Dente

The singing floating pasta timer.

 MADE IN GERMANY

# Al Dente

Perfect pasta made easy.

Al Dente looks like a mobster, but all he wants to do is to help.

Originally he came from Italy and brought cultural goods along. Once the pasta is al dente, he will sing Italian themed tunes. The pasta timer will be plunged into the water together with the real pasta.

He works on an electronic pasta-cooking-program which will play four songs – each tune being godfathers for different styles of pasta:

„That's Amore“ for 3 minute pasta,

„The Godfather Theme“ – for 7 minute pasta,

„Tarantella Napoletana“ for 9 minute pasta and

„Prisoners' Choir“ for 11 minute pasta.

 MADE IN GERMANY

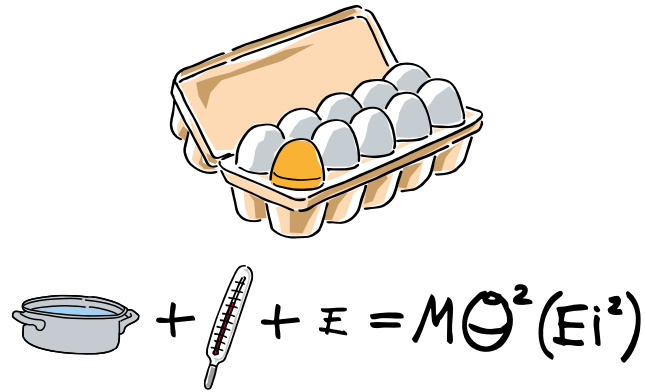

# The Facts

What you always wanted to know about BeepEgg®

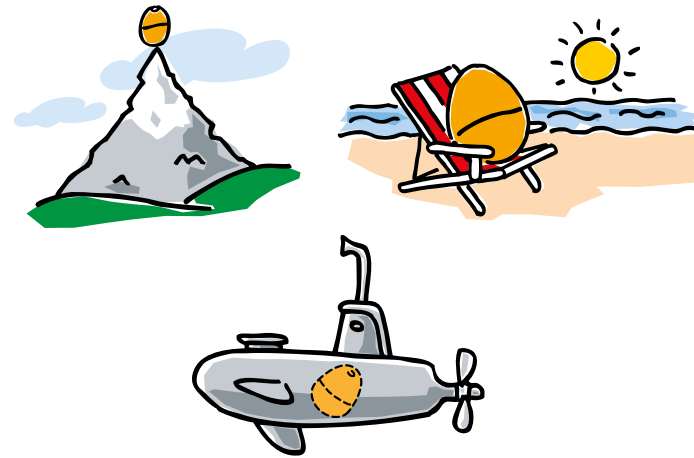

## How does PiepEi® work?

BeepEgg® constantly measures the outer temperature. With this data it calculates the core temperature of the egg. BeepEgg® knows at which temperature each stage is perfect. Once the egg has reached the desired stage, BeepEgg® will play a melody.

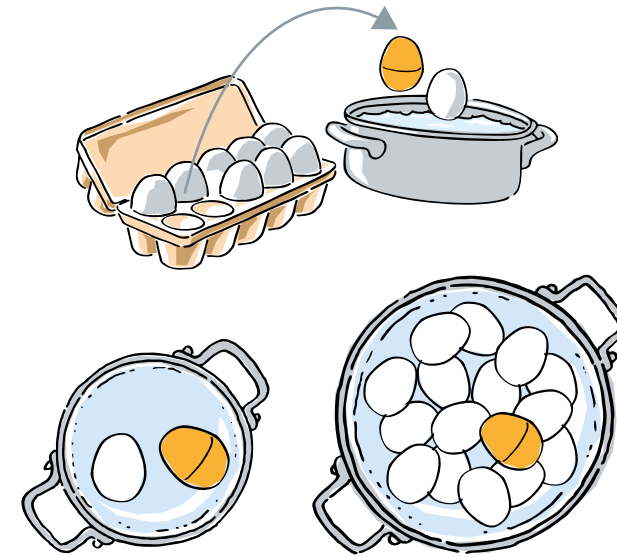

## Does BeepEgg® work everywhere?

Yes, due to its thermo-model, it works at all altitudes and under all conditions. You can use it during diving excursions (you'll need a submarine, though) as well as on the Himalaya or at sea level. Boil one egg or twenty at a time, start with cold or boiling water. BeepEgg® is always on point.

## Why does BeepEgg® not live forever?

Due to food safety reasons, we have to seal the electronic part containing the battery. Therefore the battery cannot be exchanged. There is a 2-year warranty though, and at regular usage, it lasts way longer.

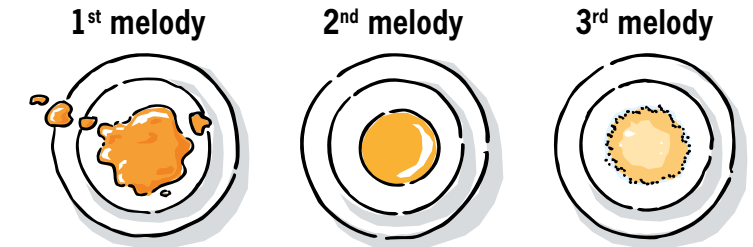

## How to meet my personal taste on point?

Each edition plays three melodies, each melody signaling one level of hardness. These three different tunes will each be repeated several times to meet the egg sizes as well as personal fine tuning possibilities.

## Where does BeepEgg® come from?

BeepEgg® is a quality product and "Made in Germany". A German invention which is also produced on our home turf.
