

Do-Dish - Your New Kitchen Partner

Sustainable Soap Dish Dispenser *- A Patented Invention from Bosign*

Do you need to quickly wash a pot or your favorite coffee mug? Wish you didn't have to bring out the bottle of detergent or didn't have to leave it on the counter top?

- Instant access to washing-up liquid
- Easy one-handed operation
- Eco and circular friendly – Smart dosage, reduce the consumption of detergent. Container and lid are made from recyclable materials, PET, PP and Silicone, that can be recycled again
- Tip: Add water to increase flow of dish soap and minimize dish soap usage
- Generous opening makes refills fast, easy, and spill-free
- Do-Dish™ is a patented invention from Bosign
- Selected by the Ambiente fair Jury for Ethical Style 2024

Easy One-Handed Operation

Press the lid of the dispenser with your dish brush or a sponge to dispense dishwashing liquid. Do-Dish™ squirts just the right amount of dish soap through the small hole in the center of the lid right on to your brush or sponge.

Product Specifications:

- Holds up to 7 oz / 200 ml washing up liquid
- Measurement: ø11x 6,5 cm high
- Material: Container and lid are made from recyclable materials. PET/PP/Silicone

Care Instructions:

Fill the dispenser with a dish soap of your choice. Add water to increase flow of soap. Press with brush or sponge to dispense dish soap. Clean container before refilling. Wash by hand.
