Stagg EKG Pro

Electric Pour-Over Kettle

Ultimate pour-over control. Just say when.

Coffee lovers should never settle, especially when it comes to their kettle. Stagg EKG Pro gives you precise control over flow rate and temperature, extra strength tools to take your brewing skills to the next level, and access to powerful updates over WiFi. Pour out all the stops.

Menu Features:

Set it and forget. Use Stagg EKG Pro's full color LCD menu to brew the perfect pour-over.

Schedule

Set your kettle to reach a specific temperature at a specific time.

Guide Mode

Preset temperatures for different coffee brewing styles and types of tea.

Adjustable Hold Mode

Keep your water hot for 15, 30, 45, or 60 minutes.

Chime

Hear when your water is ready. Turn it on or off and decide how loud.

Altitude

Prevent over-boiling by setting the altitude for your location.

Units

Pick Fahrenheit or Celsius.

Pre-Boil

Boil to sanitize water before heating to your target temperature.

General

Choose your language. Set the clock—you'll need it for scheduling. Go analog or digital. Turn WiFi on or off.
