VICTAULIC TOOLS FOR REVIT®

As an Autodesk® Partner, Victaulic has developed a best-in-class add-in for all supported versions of Autodesk® Revit®. Preloaded with active gold standard content, and continually developed to bring you industry-leading efficiency and modeling tools, look to Victaulic Tools for Revit® to streamline your next project.

Victaulic's toolbar exclusively for Revit® is provided with free Revit® templates to kickstart your next project. Visit victaulic.com/resource-software to download an up to date template.

Making Revit® Backwards Compatible

Say farewell to backsaving issues within Revit.® Victaulic Tools for Revit® now allows you to backsave in Revit.®

Indispensable Pipe Routing Features

Component Bank: Save and re-use entire assemblies and selections for future projects.

Tap Creator: Tap pipes in seconds with customized presets.

Project Maintenance: Pull system and loadable families into a project with one click.

Assembly Manager: Interact seamlessly with assemblies and altered item notifications.

Any Connect: The Any Connect Tool makes connections simple in any view.

Fabrication in Revit® is Possible

The procurement tool within the Victaulic Tools for Revit® toolbar allows you to select an area within your model and easily create bill of materials, including tags, part numbers, and finishes, eliminating the need for secondary software.

Seeing is believing.
