AIR SYSTEM COMPONENTS

# Mass production & custom-built solutions

**The formula for success**— We are one of Europe's leading manufacturers of high volume round ventilation components and of tailor-made solutions to fit individual customer needs. A team of 500 employees is working hard every day to make sure our customers are satisfied. A flat hierarchy and short communication channels enable us to react flexibly to customer requests at short notice. We keep stock of a wide range

of articles at our warehouse and manufacturing facilities, with a total hall space of 41.000 m<sup>2</sup> in Braak near Hamburg, Wuppertal, Nürnberg and Gubin. Processes monitored in accordance with DIN EN ISO 9001, the consistently high quality of our products and reliable, punctual delivery are the foundation, which form long-lasting and successful cooperation with our German and European customers.

### The product range

The ventilation components manufactured at our own production facilities comprise spiral ducts, fittings, silencers, flexible ducts and volume flow controllers. In addition to the round duct system articles, rectangular components such as baffles and splitter silencers are also an integral part of our product line. Our customers profit daily not only from the everything-from-one-hand principle, but also from the steadily growing product range.

### Production figures

■ Spiral ducts	1.400.000
■ Fittings	7.000.000
■ Circular silencers	180.000
■ Flexible silencers	200.000
■ Flexible aluminum ducts	300.000
■ Insulated ducts & fittings	400.000
■ Roof hoods	40.000

calendar year 2021

## Facts & Figures

- around 500 employees
- annual requirement of 15.000 t steel and 400 t aluminum
- 4 production and warehouse locations: Braak, Wuppertal, Nürnberg and Gubin
- 41.000 m<sup>2</sup> manufacturing and storage area
- Quality Management System to DIN EN ISO 9001

## Quality & Service

**The quality concept** – We constantly demand the highest standards for our products and services and fulfill these with a rigorous quality policy. Our Quality Management System to DIN EN ISO 9001 helps us to achieve this goal.

**Data sheets on demand** – You require technical information on a specific product? In our technical data online you will find what you need in seconds thanks to the full-text search. In addition to the data sheets you will also find a list of the most important specification texts which can be downloaded here: [www.rokaflex.de/catalogue](https://www.rokaflex.de/catalogue)

# Europe and beyond...

## **Anytime and anywhere**

We deliver to our customers at home and abroad with a high degree of reliability thanks to a strong network of logistics partners. Logistic challenges are a part of our daily routine.

## Select & Plan

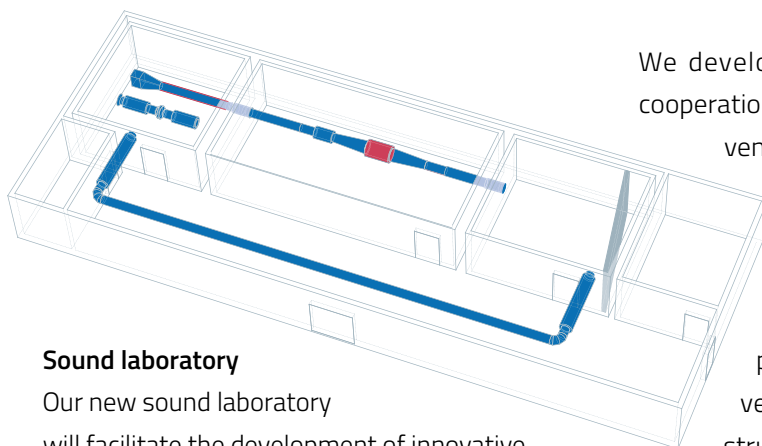

**Rokadim & Rooftop** – Our selection program Rokadim for silencers and our new web-app Rokaflex Rooftop for roof components will support you during the planning phase of your next project. In the shortest of time you will find a product that will fulfill the requirements with respect to noise reduction and aerodynamic specifications.

## Customized solution

We develop tailor-made concepts in close cooperation with our customers in the fields of ventilation and air conditioning technology,

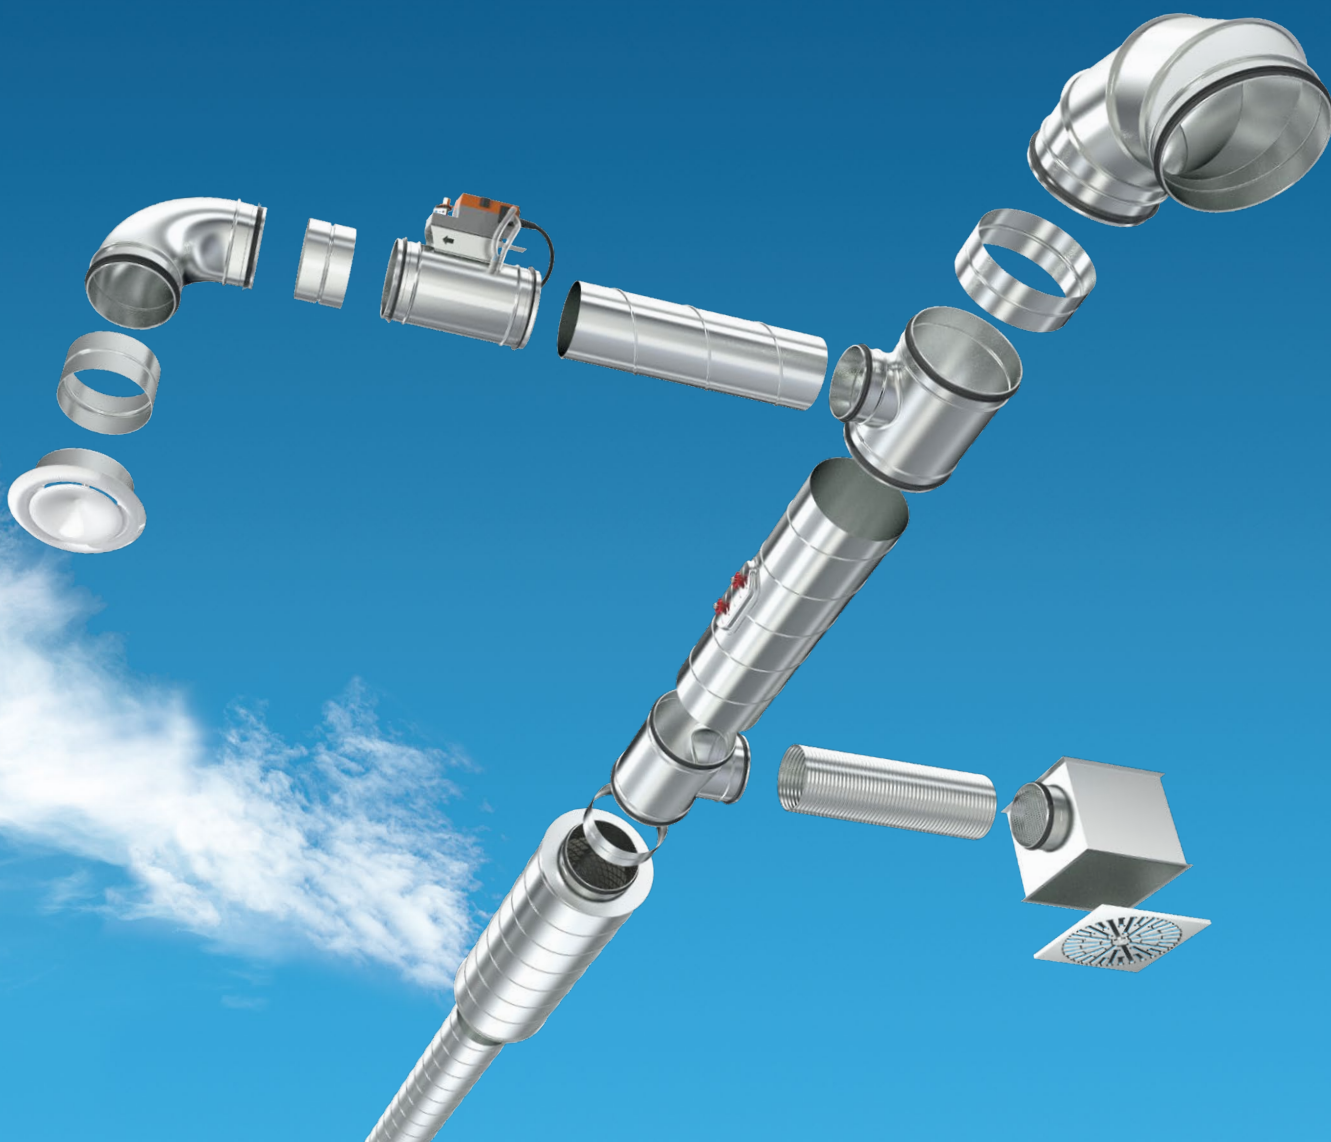

air processing systems and special industrial design – for example metal construction, laser- and stamped parts, hoods and panels, metal sheathing, filter units, ventilator housings and welded constructions of galvanized steel, stainless steel and aluminum.

### **Sound laboratory**

Our new sound laboratory will facilitate the development of innovative silencers and ventilation components.
