SPRINT CLASSIC / 6 / 7 / 8

LIGHT BARRIER
SPRINT / SPRINT XL

The light barrier is for the safety of the operator.

Item No.: 360.030.900

STATUS LIGHT FOR
SPRINT CLASSIC / 6 / 7

Shows the status of the machine.

Item No.: 396.100.036

STATUS LIGHT FOR
SPRINT 7L & 7XL

Shows the status of the machine.

Item No.: 396.100.037

QUICK CHANGE SYSTEM
SPRINT 5 / 6 / 7

Allows to change between different modes and frames within seconds.

Item No.: 360.998.901

QUICK CHANGE SYSTEM
- ONE ADAPTER

Adapter for Quick Change System SPRINT 5 / 6 / 7

Notice: Two adapters per frame are needed.

Item No.: 360.010.209

PREPARATION SEQUIN DEVICE

The preparation makes a later installation of a sequin device easier. Preparation can be left and/or right of the embroidery head.

Item No.: 270.022.964

TABLE PLATE
SPRINT CLASSIC / 5

Item No.: 360.007.801

TABLE PLATE
SPRINT 6 / 7

Item No.: 360.007.804

TABLE PLATE EXTENDED
SPRINT 6/7

Obligatory for ROLL2BASKET

Item No.: 360.007.806

SPRINT ROLL MOUNTING

Two rolls are attached to the back of the machine, for for easier moving in tight spaces like a trunk.

Item No.: 360.001.913

SUPPORT FOR TUBULAR ARM (HEAVY GOODS)

Support to reinforce the tubular frame when embroidering heavy materials.

Item No.: 360.008.923

SPRINT CLASSIC /5 / 6 / 7 BASE FRAME

The stand is height adjustable

Item No.: 360.001.921

SPRINT CLASSIC / 6 / 7 BORDER FRAME

Max. embroidery field
460 mm x 310 mm / 18,1" x 12,2"

Item No.: 360.008.940

SPRINT 6 L BORDER FRAME L

Max. embroidery field
600mm x 280mm / 23,6" x 11"

Item No.: 360.008.968

SPRINT 6 XL BORDER FRAME XL

Max. embroidery field
1.200mm x 280mm / 47,2" x 11"

Item No.: 360.008.942

SPRINT 7 L BORDER FRAME L

Max. embroidery field
600mm x 400mm / 23,6" x 15,7"

Border Frame SPRINT 7L
Item No.: 360.008.958

Frame Divider (vertical)
Item No.: 360.011.901

SPRINT 7 XL BORDER FRAME XL

Max. embroidery field
1.400mm x 400mm / 47,2" x 11"

Border Frame SPRINT 7XL
Item No.: 360.008.951

Frame Divider (vertical)
Item No.: 360.011.901

INTERMEDIATE TENSIONER

For SPRINT CLASSIC / 6/ 7
To vertically divide the Border Frame.

Item No.: 360.011.901

STITCH PLATE - UPGRADE RACER & SPRINT CLASSIC

A CLASSIC can be upgraded to benefit from the variety of inserts of the Racer. Therefore the standard stitch plate can be switched to the threaded version.

Item No.: 361.002.205

STITCH PLATE INSERT RACER & SLIM TUBULAR ARM

Application: standard (default)
Insert Ø: 12,0 mm
Tap hole Ø: 2,0 mm
Insert height: 1,3 mm
Flat sink: 0,3 mm

Item No.: 360.002.253

BASE FRAME SPRINT 8

Item No.: 360.001.932

## TABLE PLATE SPRINT 8

Item No.: 360.007.811

STATUS LIGHT SPRINT 8

Item No.: 360.009.925

LIGHT BARRIER SPRINT 8

Item No.: 360.030.906

LIFTING DEVICE SPRINT 8

Item No.: 360.001.934

SPRINT 8 BORDER FRAME

Max. embroidery field
460 mm x 310 mm / 18,1" x 12,2"

Item No.: 360.008.978

RACER

LIGHT BARRIER RACER

Standard Lightbarrier
Item No.: 361.030.900

Barrier for installled Sequin Device
Item No.: On Request

STATUS LIGHT FOR RACER

Shows the status of the machine.

Item No.: 396.100.036

ERGONOMIC MOUNT FOR T8 AND LAPTOP

The T8 mount with 2 arms allows parallel working on T8 and laptop.

Swivellable and adjustable to desired position and height.

Item No.: 361.998.904

MACHINE HEIGHTENING RACER 4 PCS

Heightening 115mm / 4,5"
Item No.: 368.999.905

Heightening 215mm / 8,5"
Item No.: 368.999.904

MACHINE PEDESTAL

Item No.: 368.001.902

SUPPORT FOR TUBULAR ARM (HEAVY GOODS)

Support to reinforce the tubular frame when embroidering heavy materials.

Item No.: 360.008.923

PREPARATION SEQUIN DEVICE

The preparation makes a later installation of a sequin device easier.

Item No.: 270.022.964
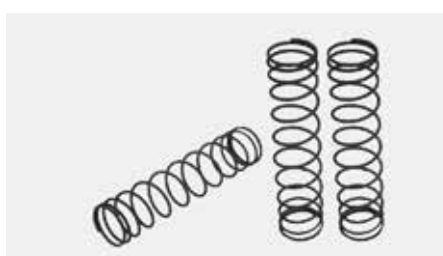

STRONGER SPRINGS

Stronger Springs Standard
Item No.: 502.450 / per pc.

Stronger Springs Leather
Item No.: 502.516 / per pc.

Stronger Spring Puffy
Item No.: 502.526 / per pc.

PROTECTIVE COVER

Protective Cover 18 Needles
Head 1 - Item No.: 285.003.920
Head 2 - Item No.: 285.003.917

Protective Cover 24 Needles
Head 1 - Item No.: 281.998.901
Head 2 - Item No.: 281.998.900

STITCH PLATE - UPGRADE RACER & SPRINT CLASSIC

A CLASSIC can be upgraded to benefit from the variety of inserts of the RACER. Therefore the standard stitch plate can be switched to the threaded version.

Item No.: 361.002.205

STITCH PLATE INSERT RACER & SLIM TUBULAR ARM

Application: cap embroidery (option)

Insert Ø: 12,0 mm
Tap hole Ø: 2,0 mm
Insert height:3,0mm

Item No.: 990.112.202

STITCH PLATE INSERT RACER & SLIM TUBULAR ARM

Application: standard (default)

Insert Ø: 12,0 mm
Tap hole Ø: 2,0 mm
Insert height: 1,3 mm

Device right side
Item No.: 570.796

CORD/ LOOP DEVICE

Includes two cord feet sizes (1,3 and 1,5 mm).
2 needles taken per head

Device left side
Item No.: 270.012.911

Device right side
Item No.: 270.012.912

ADDITIONAL FEET FOR CORD/ LOOP DEVICE

The additional feet allows to easily switch
to a different cord size.

Type	Item no.
Hole size 0.9 mm	990.058.205
Hole size 1.1 mm	990.058.206
Hole size 1.3 mm	990.058.200
Hole size 1.5 mm	990.058.201
Hole size 1.7 mm	990.058.202
Hole size 2.0 mm	990.058.203
Hole size 2.5 mm	990.058.204
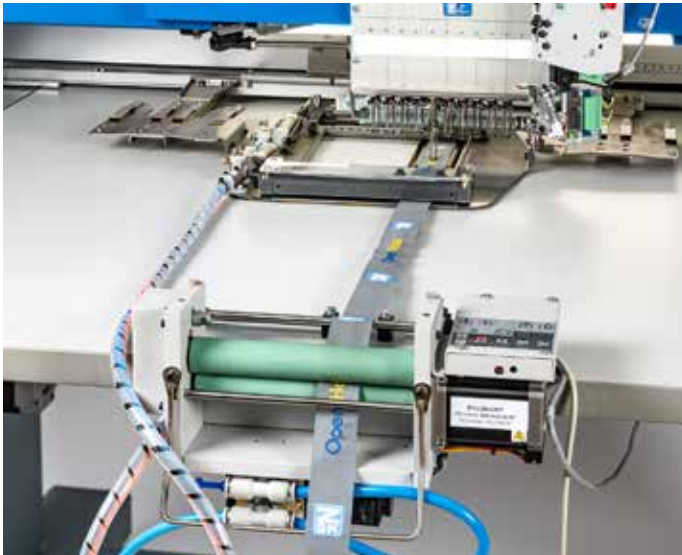

ROLL2BASKET

Embroidery of ribbons/belts with width 10 - 150 mm.

ROLL2BASKET - Unit/Head
Item No.: 570.734

Priming / per machine
Item No.: 570.733

ROLL2BASKET
TABLE PLATE EXTENDED FOR SPRINT 6 / 7
Obligatory for ROLL2BASKET on SPRINT 6 / 7

Item No.: 360.007.806

ROLL2BASKET
## UP WINDING UNIT FOR ROLL2BASKET

The embroidered ribbon is wound onto a roll for further processing. For rolls with up to 400mm diameter and materials of up to 5mm thickness.
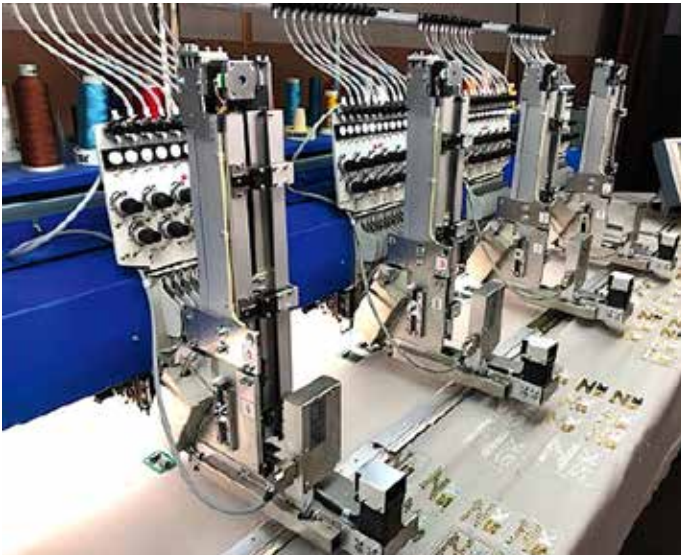

Item No.: 570.816

ROLL2BASKET
SENSOR FOR TAPES FOR ROLL2BASKET

Potential applications are ribbons with textile printing or weaving that have a defined area where embroidery needs to be placed on point.

Item No.: 585.114

PCB E30 PLACEMENT DEVICE
On request
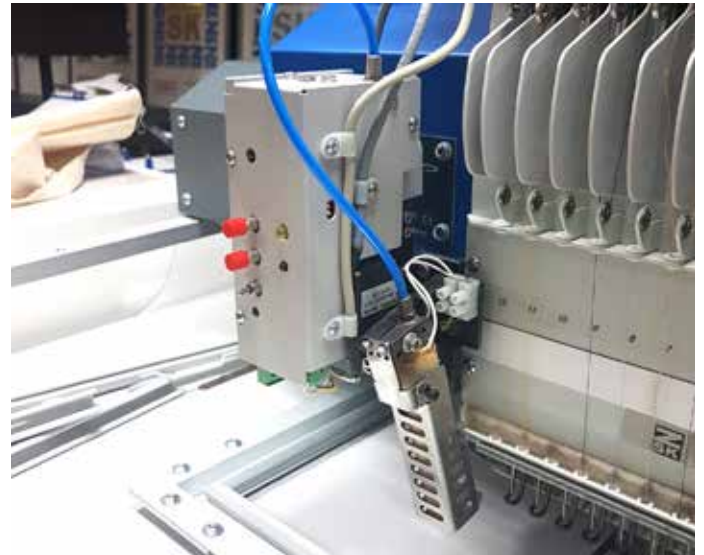

HAC - HOT AIR CUTTING
This device cut out textile materials by a given contour.

HAC / per Head
Item No.: 570.717

Priming / per machine
Item No.: 570.722

CORDING DEVICE EP 1.2
This device allows cord sizes from 0.8 mm - 4 mm.

Priming / per machine left
Item No.: xxx

Priming / per machine right
Item No.: xxx

Device left side
Item No.: 570.749

Device right side
Item No.: 570.716

EASY POSITIONING SYSTEMS

Smake®
make it scalable

EPS HoopStation & EPS BOW

THE VIRTUAL POSITIONING SYSYTEM FOR EMBROIDERY AND TRANSFER PRINTING

EPS HOOPSTATION

EPS for Embroidery - Supports all machine makes that work with the HoopMaster and MightyHoop.

Item	Item No.

EMBROIDERY ACCESSORIES
MIGHTY HOOP

QUEST FOR HAPPINESS - HOOPING AID AND MAGNETIC HOOPS

HoopMaster and the Mighty Hoop are todays easiest to use hooping aid available for the professional embroidery industry worldwide.

This helpfull system will save time, increase productivity and rise quality of work at any company at the industry.

The many patented features of HoopMaster make clamping of textiles and other materials easier, faster and top consistent.

The positioning of design elements like a company logo will be realized by the help of a coordinate system. Keeping this individual coordinates documented guarantees the straight reproduction of this positioning at any time.

With HoopMaster hooping aid and Mighty Hoop magnetic hoops even untrained teamer will learn quickly to clamp textiles in top-quality.

MIGHTY HOOP SET

BASIC MAGNETICS

ZSK's starter kit „Basic Magnetics"

- HoopMaster Station, T-Square
- 1 x Mighty Hoop 5.5"

FIXTURE MIGHTY HOOP 4.25"

Fixture for Mighty Hoop 4.25" for the HoopMaster System!

Item No.: 570.232

FIXTURE MIGHTY HOOP 4.375"

Fixture for Mighty Hoop 4.375" for the HoopMaster System!

Item No.: 570.267

FIXTURE MIGHTY HOOP 5.5"

Fixture for Mighty Hoop 5.5" for the HoopMaster System!

Item No.: 570.222

FIXTURE MIGHTY HOOP 6.5"

Fixture for Mighty Hoop 6.5" for the HoopMaster System!

Item No.: 570.266

FIXTURE MIGHTY HOOP 7.25"

Fixture for Mighty Hoop 7.25" for the HoopMaster System!

Item No.: 570.226

UNIVERSAL-FIXTURE

Universal fixture for Mighty Hoop sizes from 10"x10" to 13"x16"

Item No.: 570.224

FIXTURE MIGHTY HOOP 13" X 4.25"

Fixture for Mighty Hoop 13" x 4.25" for the HoopMaster System!

Item No.: 570.230

FIXTURE MIGHTY HOOP 16" X 4.25"

Fixture for Mighty Hoop 16" x 4.25" for the HoopMaster System!

Item No.: 570.268

Resources

All products can be ordered via ZSK Stickmaschinen Parts Department at **parts@zsk.de** or with any of ZSK Distributor worldwide.

MIGHTY HOOP

MIGHTY HOOP 4.25"

Dimension: 4.25" / 108 mm.

Available for ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.231

MIGHTY HOOP 4.375" ROUND

Dimension: 4.375" / 111.1 mm round.

Available for ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.259

MIGHTY HOOP 5.5"

Dimension: 5.5" / 135 mm.

Available for ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.221

MIGHTY HOOP 6.5"

Dimension: 6.5" / 165 mm

Available for ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.257

MIGHTY HOOP 7.25"

Dimension: 7.25" / 184 mm.

Available for ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.225

MIGHTY HOOP 10"

Dimension: 10" / 254 mm.

Available for ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.223

MIGHTY HOOP 4.25" X 13"

Dimension: 4.25" x 13"/ 108 x 330 mm

For ZSK embroidery machines with head distance 495 mm.

Item No.: 570.258

MIGHTY HOOP 6.25" X 8.25"

Dimension:
6.25" x 8.25" / 159 x 210 mm.

For ZSK embroidery machines with head distance 495 mm

Item No.: 570.245

MIGHTY HOOP 8" X 9"

Dimension: 8" x 9" / 203 x 229 mm

For ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.255

MIGHTY HOOP 8" X 13"

Dimension: 8" x 13" / 203 x 330 mm.

For ZSK embroidery machines with head distance 495 mm.

Item No.: 570.233

MIGHTY HOOP 9" X 5"

Dimension: 9" x 5" / 229 x 127 mm

Available for ZSK embroidery machines with head distance 400 and 495 mm.

Item No.: 570.256

MIGHTY HOOP 11" X 13"

Dimension: 11" x 13" / 280 x 330 mm.

For ZSK embroidery machines with head distance 495 mm.

EMBROIDERY ACCESSORIES
ALLIED HOOPS (PAGL)

WHAT DIFFER PREMIUM ALLIED GRID-LOCK (PAGL)™ HOOPS FROM OTHER BRANDS?

PAGL™ hoops offer unique patented features for a fast and easy hooping of apparel that has to be embroidered.

Centimeter scale grid lines, dot markings and lines at the inner hoop enable a fast visual verification of the correct position of the hooped textile and embroidery design.

All over the world embroidery companies of all sizes appreciate the sophisticated and helpful characteristics of Premium Allied Grid-Lock™ plastic hoops to clamp garments fast, clean and consistent.

THE GRID-LINES AND MARKER OF
PREMIUM ALLIED GRID-LOCK™ HOOPS
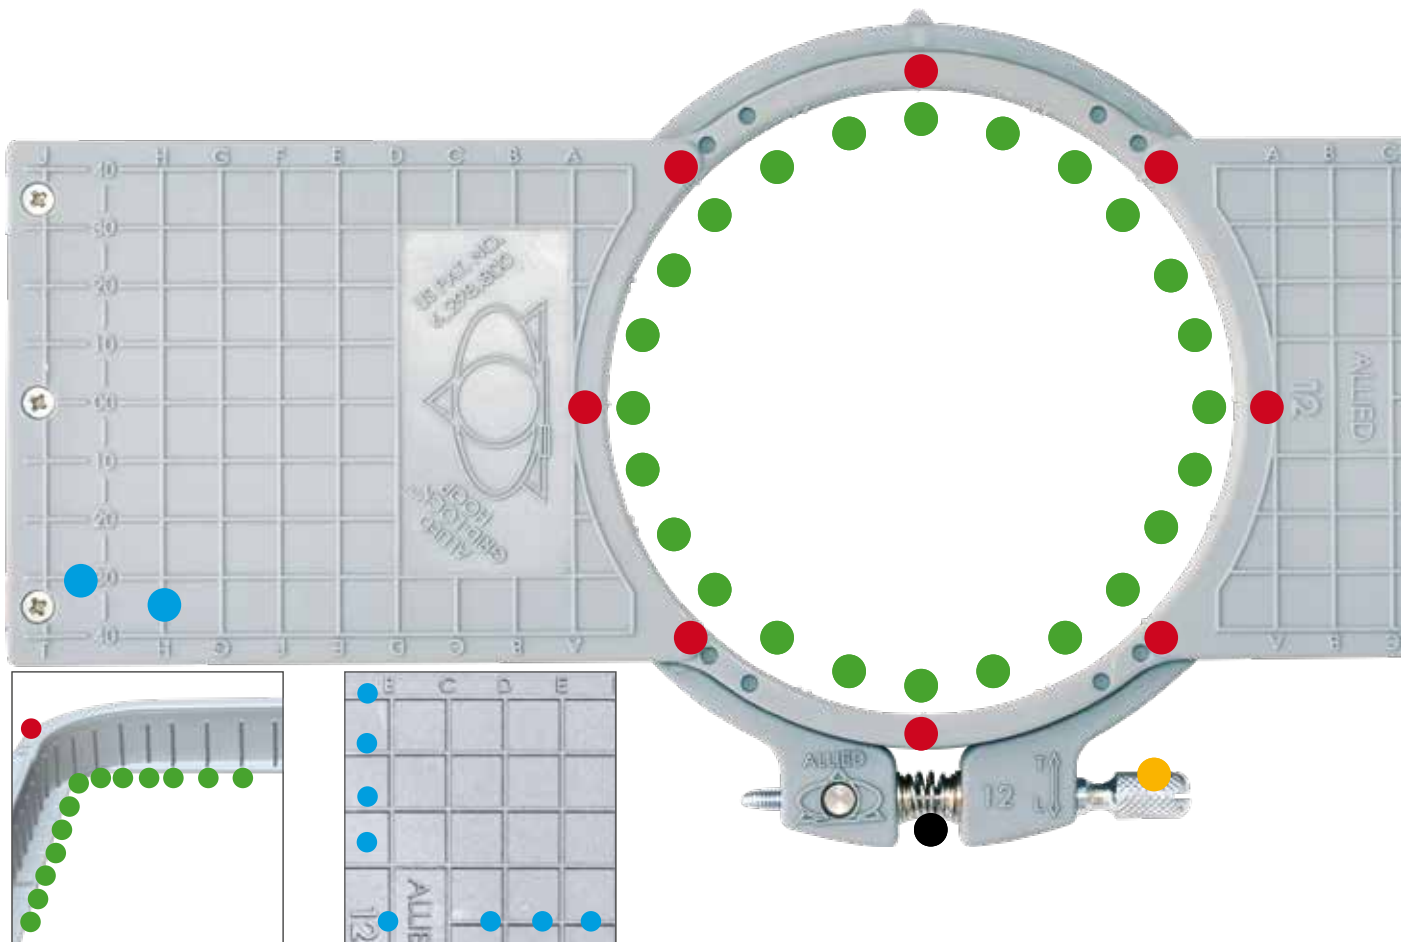

🔵 Vertical and horizontal grid-lines spaced in one centimeter distance and differentiated with numbers and alphabet letters to align at button tab or other design elements of the specific garment.

🔴 Radial positioned marker at the top of the frame grant additional support to align precisely.

🟢 Reference marker at the inner frame facilitate the adjustment related to any pattern of the apparel to be embroidered.

🟡 Extra-long knurled screws enable the hooping of even thicker textiles and allow controlling easily the tension by hand or screwing driver.

⚫ A spring positioned at the knurled screw keeps the outer hoop open for better adjusting of the inner hoop.

ALLIED PLASTIC FRAMES - ROUND

PAGL HOOP 80

Dimension: 80 mm / 3.15" round.

Available for ZSK embroidery machines with head distance 400 and 495 mm.

COMPRESSION SPRING WITH GUIDE

Item No.: 570.667

WOODEN FRAMES - FOR TUBULAR MODE

MORE THAN STANDARD!

Today the majority of embroiderer prefer to use plastic frames for their productions. However it should be noted, that, compared to the huge volume of jobs, only a very small number of standard plastic frames really matches the needs of the different embroidery tasks.

Opposed to this wooden hoops are available in several not standardized dimensions. It is a standing rule that the more the dimension of a hoop fits to the embroidery design the merrier is the quality of the embroidery result.

MORE ADVANTAGES OF WOODEN EMBROIDERY FRAMES

- Wooden frames offer a superior grip for thin and thick textiles and even slippery fabrics like satins or silks.

- Wooden frames with double height provide additional surface to hold fabrics tautly.

- Typically, wooden frames have longer adjusting screws. By that, the opening width of the outer wooden frame is much bigger than the opening width of a plastic frame. This characteristic simplify the hooping of thick garments like winter coats and so on.

- Wooden frames offer a great variety regarding to the different aspects of embroidery like e.g. form and dimension of the embroidery design or the specific area, dimension and fabric of the apparel to be embroidered to.

WOODEN FRAMES ROUND

Available for ZSK embroidery machines in tubular mode with head distance 400 and 495 mm.

Item	Item No.
150 mm / 5.9"	990.005.800

SLEEVE FRAME

Sleeve frame 100 mm x 300 mm Available for ZSK embroidery machines in tubular mode with head distance 400 and 495 mm.

| Item	Item No.
100 x 300 mm / 3.93" x 11.81"	570.274

WOODEN FRAMES - FOR FLAT MODE

FASTENING SETS Z200 AND Z360

With the fastening sets Z200 and Z360 single frames can be efficiently used to embroider on flat system embroidery machines. The single frames are easily clipped to an adapter to the pantograph below any embroidery head. Prepared frames can be changed fast and changeover time will be minimized.

The changeover from a production with border frame to a single frame production needs comparatively less amount of work.

Larger single frames own a stabilising third point, which will be connected via an additional adapter to the pantograph. Pantographs deeper than 500 mm needs to be equipped with adjusting rails and stabilisation plates.

Depending on dimension, head distance and embroidery design the fastening sets Z200 and Z360 offer a great variety of combinations to reduce changeover time to a minimum.

FASTENING SET Z200

Wooden Frames Round

Available for ZSK embroidery machines in border frame mode with head distance 400 and 495 mm.
