

## Why choose a **humble** light?

### LONG BATTERY LIFE

We like to squeeze as many hours of light out of our little lamps as we can. With frequent use, they only require weekly recharging.

### WARM AND DIMMABLE

For us, cosiness is our number one priority. That is why our lamps have a warm, comforting colour temperature and are dimmable in 3 settings.

### WATERPROOF IP65

Our lamps have silicone seals and are IP65 certified for outdoor use. We even created impact-resistant acrylic bulbs and shades for heavy-duty use.

### WIRELESS CHARGING

Humble lamps can be charged wirelessly, just like your phone! We've even created special chargers so you can charge them in groups with ease.

### CONTROL FROM A DISTANCE

With our Humble remote, you can control all lamps within 10 meters at the same time! And if you have our latest smart lamps, you can even control them with your phone.

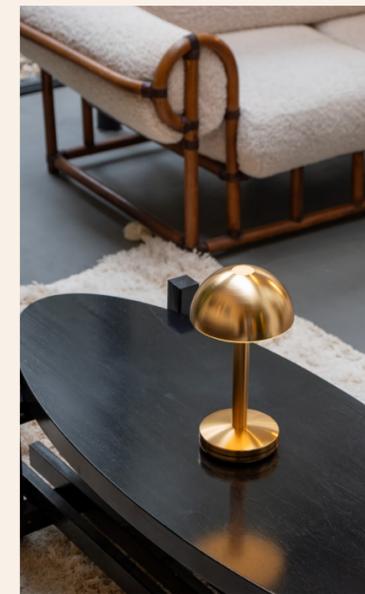

### BUILT FOR LIFE

We made sure all parts of our designs are easily replaceable. So, if an accident happens, no worries! We keep spare parts in stock and will send them your way as soon as possible.

BUG IS OUTDOOR PROOF - IP65 CERTIFIED
